Hi Rob and family,

I can't help but remember the day you and Bev came over to my dad's (Bill Cashin) to help clear out brush. Unfortunately, there was a bee's nest in the middle..and they swarmed Rob. You both rushed home to get away from the bees and start treatment. I was so concerned that you would be okay..but found you on your side steps...Bev lovingly and calmly removing stingers and treating with cream. Luckily, no reaction...in the meantime I sprayed the nest and then caught the young men who cut my dad's grass...who smashed the nest (after spraying again)..and took away the brush and dead bees! She was so calm! I know you didn't want to worry my dad...so came over later to reassure him that Rob was okay! I have never forgotten that day...or your kindness!

Bev was the best and I'm so sorry that she is no longer here with us.

Much love to you all,

Bobbi and David Gouker (and Tymon)
