“ I am so sorry to hear of John's passing. I grew up with John in Blacksburg. I remember him as being funny and in good spirits, lifting our spirits as well! When I had his niece Jackie as a student in my second grade class, I got to hear bits and pieces about Uncle John!

“ John was my best friend when I was 6-8 years old, or at least that is my memory. I know we played together constantly in the summer, and at one point he hit me on the head with a hatchet (an accident) with no permanent damage, probably because of the thickness of my skull. He moved away from Blacksburg at some point and I remember being devastated, but when he moved back we did not pick up our close friendship where it left off, though we remained friends. John's dad was a professor at Virginia Tech and taught electrical engineering (I think) and I know what when I was engaged in some kind of high school electrical experiment, and I was stumped, John got his dad to set me straight, for which I was very thankful. I will remember John as an indelible happy episode in my childhood in memory forever green. --
