“Ada was my preceptor as a "newbie" to ICU and the wonderful and demanding career as a critical care nurse. Ada, you taught me think as an ICU nurse. You were always there with the answer to my questions. I can recall the gift you gave me when I got married. I cried with you when you bravely accepted your health challenges. I can never say thank-you enough, and may you rest in the loving arms of your family that you are once again reunited with. with much love and respect Lila Mayes
