“ I just know from David Chandler that Alan passed away. It is very sad news. Alan was my boss who gave me opportunity to come to work in Shakopee MN as SeaChange from Seagate Teparuk Thailand. He is very generous who gave me opportunities to learn works at HDD design center and get to know America. He will always be in my memory. R.I.P Alan.

“ I remember Mr Alan C Bowman when he visit Penang Seagate (Malaysia) in 1998 . I was schedule to meet Mr Alan to present my Six Sigma Project and understand Mr Alan is a Six Sigma Master Black Belt during that time.

Still fresh in my mind Mr Alan sincerity and humble to help me to survive my presentation and get the certification.

" Don't worry - we will get you certified " he says . I found Mr Alan is very meticulous and he will gave a serious attention from one slide to another . Sometimes I couldn't answer his question especially when he go deep into the method of data gathering .

Finally - he agree and approve my project with Certification. Since than I never met Mr Alan again.

Even though the session only took 2 .hours . I will never forget the session . Especially to all his advise , sharing ,motivation ,mentors and kindness.

Thanks to Mr Alan C Bowman - as all your advise and sharing is really usefull in my career.

Rest in Peace.

“ My wife & I just heard about Alan's passing from Carla & John Serenka. We have many fond memories of Alan in his high school days when he and John and Bob Bunosky (who later lived with us) were all students of my wife, Claudia Hoffman, at Ursuline HS. the boys used to come to our house often, play with our 4 little kids, and just hang out. They were really great boys and we were blessed to have quality time with all of them. That may be a long time ago, but we still have those memories. Then Alan joined the Marines, Bob was killed in a tragic auto accident, and John moved to Fla. Needless to say, we were both very very saddened to hear of Alan's passing. Please know that he, and well as you and your family will be in our prayers.
