“ *Aldona was my Latvian language teacher. We met once a week at her home for several years. Over that span of time I learned so much, and we became friends. I am extremely saddened by her passing. May Aldona's family's heavy hearts be lightened by the fact that Aldona was so inspiring and influential to me and many others. My thoughts are with you.*

“ *Dear Pone family, As one of Vivita's caregivers, it is very sad for us at her home to have her mother pass away so suddenly. Vivita had a great relationship with her mother and she always looked forward to her visits with her and the rest of the family, especially, seeing those nieces. Hope this great relationship with her family can continue. Our condolences to all the family. You are in our prayers this week. Mary Sullivan*
