“*We are sorry to hear of Al's passing. As next door neighbors, we
have many fond memories of your family. Al and Betty were so
welcoming to us as new neighbors. We respected their family
values and enjoyed an occasional bridge game with them. We also
enjoyed the pride they took in their children as they matured. The
last time we visited with Al and Betty was when they visited us at
our home in Florida.. They still displayed a love for life. We are so
lucky to have known them. We too will miss Al.*
