“ *Barb would come into the Center periodically with such passion for cancer prevention! I helped her with materials for a quit smoking display at the library and she talked a great deal about the benefits of Garlic. Bless her for her determination!*
I was cleaning out files and came across some articles she had shared that she had written to the Chatfield New. It prompted me to "google" her name and so discovered that she had passed. She truly lived a full life and never stopped teaching. My sympathies to the family. Respectfully Jeri Lensing

“ *I learned Spanish from Señora Upton in Preston. She was a delightful teacher who I enjoyed very much. I graduated with Willy in the class of 72. I now live in Delavan and I see she will be buried in Mapleton. My sympathy to all of your family.*

“ *I remember Aaron's farm. We had some good times along with the bad. I hunted and explored the woods while you had horses to ride. Lots of good memories. Your brother, Lloyd*
