MT

“ I never had the chance to meet Beth, but I became friends with her in 1991 when she wrote an "Any Servicemember" letter that I received while deployed during Operation Desert Storm. I wrote back and we became penpals for a couple of years, then lost touch as time passed. She contacted me a year or so ago through Facebook, and it was great to reconnect with her and share what happened in our lives during the past couple of decades.

I am saddened by the news of her passing and hope that her family finds comfort during this difficult time. They can always live knowing that Beth was a kind, generous person who had a great heart and was a fantastic friend to all who had the privilege of knowing her.
