“ I just posted three photos of my mother, Donna Medwid at her wedding to my dad, Dr. Albert Medwid in Chicago in December of 1954 when Betty was my mom's maid of honor. They met in college and were roommates for four years. My mom has spoken about Betty over the years as being incredibly beautiful and equally nice and popular. She was a lovely lady my mom said who didn't have a fault that she could ever see! They both went on to get married and had 3 children - two girls and one boy. They each had a "Lisa". My mom is now 95, widowed 9 years and lives in Santa Barbara, California. She and Betty have been able to connect over the years when my mom would visit my brother in Minneapolis. In between they would write letters over the years. May she rest in peace.

Thank you so much for sharing the photos and kind comments. Your mom Donna always wrote to my mom and Mom always loved to read her letters. The last few months she wanted to write but was not up to it. Thank you! Kris

“ Betty was my Dad's beloved cousin, Betty always was so supportive to our family when my Mom was critically ill for 7 years. Betty would invite my Dad to her home for Holidays and get-togethers. She reached out to others and was so sympathetic.

“ We will always cherish gatherings with Betty and her family. She loved to entertain and we all looked forward to her meals. She was an exceptionally great cook and hostess.
We will miss our many phone visits with our beloved sister when we couldn't be together in later years.

Betty loved telling me about where she and her 'sister Jingwen' had gone, a movie, to dinner, to visit other friends. She truly loved you Jingwen. Thank you for being her friend!

“ I met Betty in an English class in 1997. I didn't understand English at all at the time. she would see a girl with a Chinese face in the movie theater and ask her to become our friend. from then on how I started my friendship with Betty. Over the past 27 years, she has not only helped me learn English and helped me deal with many extraordinary things that I couldn't take care of, but also cared about me in every possible way. The apartment I live in now was found for me by her in 2004 because it is close to her home. She is like my sister and my relatives in the United States.
