“ *I remember my grandmother (Elvie Novak) reading cards for your family and your family was a personal favorite of hers <3 We lived upstairs from your family back in the 60s and my mom used to love to visit with your mom Ruthie and as always i had to tag along lol.. And I remember sitting in your kitchen so bright and always cheerful and seemed like someone was always baking something and smelled so good. :) And I liked hanging out on the front porch when I seen Jackie out there because I looked up to her and always wished to be just as pretty as her when I grew up :) And my sister Nancy and I used to like to show off out new school dresses to Terry and wayne when we seen them sitting outside lol...These are just a few of my memories with your family and when we moved away I felt so bad that I think I actually cried :( But I knew we would always see your family again because you would come to our house when grandma was in town and have your cards read.. And I was so happy when i found Jackie again after all these years and we are friends again thanks to facebook!! So on behalf of my family and Grandma too looking down from Heaven I send heartfelt condolences to you all...God bless you all and may you never forget the Loving memories of your beloved sister Beverly and as my Grandma would say: Beverly is watching over you all from Heaven above <3*
