“ *A few favorite memories of my Grandma. The countless sleepovers where they would call my parents and ask if they could have us for the weekend. They would take us to gun shows which we thought was pretty cool. We slept on cots in their bedroom and would make up stories before falling asleep.*

*Homemade animal shaped pancakes in the morning. Playing with her old jewelry.*

*Swimming in the creek. I'm pretty sure we went sledding and someone ended up in the creek. As I got older I loved having a good conversation with her. I could talk to her about anything. Her memory was always there and I loved hearing her stories. She was truly an amazing person and the best grandma. I will cherish the memories.*

“ *My mother will always be remembered by me as a little boy growing up in a small tight knit neighborhood in the 60s & 70s. She always supplied me with BB's & caps for my guns, balls & bats for my games, and ideas and encouragement to go on a new adventure each and everyday no matter what the weather. We had a creek running through the yard which was always the center of activity, innertubes, building falls & dams, milk carton boats, and even ice skating. We had active farms next door with dairy cows and marvelous rock piles & fields to explore, we had Bryant lake and fantastic neighbors with pontoon planes and speed boats and swimming and fishing. Mom would ring a big brass bell when it was time for us kids to come home for supper and sometimes we would be too far away to hear it so other kids in the neighborhood would come and find us to let us know our mom was ringing the bell and we better be on our way home. We had a jagged rock covered driveway and each spring we were tender foots walking across it barefooted, but by the time summer came we could run across it with no pain. I never knew it would end but it did of coarse and I grew older and went my way. I cherish the time spent with my mother throughout my entire life and I wish her peace and tranquility along her journey. Anyone who had the privilege of knowing her was truly blessed.*

“ *My dear Aunt Bev...you will always be in my memory as a loving Aunt who always opened her home and her heart to my Montana family. Whenever I think of Minnesota and my relatives, you will always be there. I will miss you and always hold you dear to my heart.*

*My mom was an amazing women. She was such a great mom and loved us so much. I remember how she taught me how to sew. We had the sewing machine set up in her bedroom and we would stay up until midnight sewing me an outfit to wear to school the next day. She made us eggs and bacon before we went to school. She was a cheerleader in High School and would do a handspring every summer in the backyard. She would make us do chores in the morning and then pack a lunch for us and take us to Bryant Lake Beach to swim the afternoon away. My mom and dad did a lot of entertaining. We hosted Thanksgiving, Christmas Eve with both families it was sooo much fun to have all these wonderful relatives at our house. In the summer our relatives from Texas and Montana would visit my parents they would invite them over so we could visit with all of them at our house it was sooo much fun. My parents were so young and they took us to so many fun places Queen Ann Kiddiland, Excelsior Amusement Park, the Beatles Concert at the Met in 1965. As I grew older my mom became my best friend. We were only 16 years apart. I really can't imagine life without her she always saw the good in every person she met. I will always appreciate every thing she did for me and made me the person I am today. Thank you Mom you taught me how to be a good mom and therefore I was able to be a good mom to Ashley and Chad therefor Ashley is such a good mom because of you.*
