“ I worked with Gudrun at Iversons Imports when they were at Ridgedale. We shared lots of laughs. We also shared stories of our trips to Norway. She was such a "classy" lady and treated her customers with such care and concern. Oddly enough, I have been thinking about her a lot lately! I knew her husband was a golf enthusiast so I guess having the Rider Cup, in town made me wonder if he was still with us and able to enjoy the big event. Obviously that made me smile because I immediately thought of Gudrun and how wonderful she always was to me. We visited for a time when she was working at an antique shop in Wayzata. She was such a beautiful lady but more importantly a beautiful person!
