“ Although I've only known Mr Richards through my internet research, and for what seems a short period of time, I am greatly moved and saddened by his sudden transition. I feel for the loving family members, he has left to carry on. I have often talked about Mr. Richards to my peers and my clients. He and his site, have been my go to for reliable and effective supplement information. I feel as though I have lost a partner in health, a loyal friend, a family member I didn't get to meet. May all of us that will miss him, rejoice in the name of his Spirit, and carry on the path he created. The of path of Truth, Kindness and Compassion for the well being of all.

Thank you, Mark H.

“ Dearest Mary and Family,

Byron left a legacy that will continue to help people live more healthy and happy lives. His dedication and years of hard work on behalf of so many people won't be forgotten. He was truly an amazing and inspiring person and one who I will never forget. I feel truly blessed and honored to have known him and his beloved family.

A life that touches others goes on forever!

Love always & forever,

“ We met Byron around 1974 and thought he was a very bright spirit who possessed an optimistic outlook on life and living. We have watched him over the years as he developed into a caring man, married a marvelous woman, started a successful business, became a father to four wonderful people and a grandfather. We will miss him but we know that he has re-emerged as pure positive spirit who is at peace. Our hearts go out to his family, his friends and the community that he leaves behind.

*With love,

“ *What a tragic loss. I felt sick when I saw the "sad news" email last night from Wellness Resources. The earth, and the world of truth and health, lost one of the best. I still can't believe it. I learned many things from Byron and always appreciated his outspoken condemnation of the fraudulent pharmergeddon cabal. I was looking forward to learning from Byron for decades to come. If someone as healthy and wise about nutrition can die suddenly long before they should, what promise do any who live like him have? NONE! Nobody is guaranteed tomorrow. Live every day like it's your last and be full of love, light, and truth. My prayers go to his family who must continue on without him. May the Lord of comfort be with all of you. www.alpha7omega.com*

“ I am so saddened to hear of Byron's passing. I have learned so much from him over the years and consider him my nutritional "mentor." He taught me far more than I learned from a course I paid thousands for. My deepest heartfelt condolences to his family and especially to Mary, his wife. My prayers are with you and I will continue to support you as you endeavor to carry on Byron's legacy.

“ Im am saddened by this news. Byron was and still is an inspiration to me. I have learned a lot about nutritional supplements through his talks and his brilliant articles. He was a powerful force on the side of truth. R.I.P

“ I was introduced to Dr. Richards work through one of my nutrition teachers a number of years ago and was simply amazed at his ability to breakdown very complex subjects in a way that made these easy to understand. The world has lost a brilliant mind and compassionate man.
My heart goes out to his family for he was taken much too young. God bless his soul.

“ Although I'd never met Byron, it has been over the years that I have so admired his body of work, his tenacious courage and his steadfast dedication to the Truth about biologically natural restoration of the body. Thus, after routine visits to his superbly educational website and listening to his friendly (sometimes appropriately cynical) voice, I 'feel' as though I knew the integral essence of who he was; a man of highest integrity. After receiving the family's email notice yesterday, I am still in shock to know that all who dearly love him and all who have depended on his voice in the wilderness must go on without his guiding presence. My most heartfelt sympathies are extended to his wife Mary, his children, his grandchildren and all in the extended family of Byron Richards. May the brilliance of his knowledge live on in each and every one of us in order to pay enduring honor to a life that made a real difference to all who were ever touched by the genuine greater good of Byron Richards. I too feel very sad about Byron's passing. I loved his podcasts...his way of expressing himself and mostly, the brilliant information he taught me about health. God bless him and may his works keep reaching out to those in need. Hallie Coletta, New City, NY
