“ *Charlene was the most caring person. She was always there for everyone who needed to be comforted or needed help of some kind. She loved her flowers,also working in her yard. Loved her animals and over the years she had many of them. She will always be remembered for being there when you needed her. Will miss her smile and her bubbly laugh. Very stern at times and she could be feisty when she thought she was right. And she usually was right. Will miss her!*
