“ *The picture captures his personality perfectly, just had to dry my eyes enough to see it. The smile is enough to make me hear his laughter as he finished telling another joke. He was compassionate, loved his family and made everyone feel welcome. Honored to have had him as a friend, frat brother and roommate throughout our college days, Forever missed-never forgotten.*

“ *I remember Craig as a fun and loving person  
If you ever needed anything he was there to help out if he could  
We played golf numerous times. He was much more talented than I was. We would joke around and really enjoyed our time on the links.  
Everyone would be waiting on me as I went looking for my golf ball  
We would get together for lunch frequently and a occasionally a dinner. I always enjoyed his humor and friendship  
I will miss my friend but I will never forget him  
I have a ton of great memories from the years that I have known him  
Rest in Peace my friend*

“ It would take me a solid month to list all of the reasons why I loved this guy. He was one of my closest friends for the past 48 years. The world is a colder & darker place without him in it. We traveled outside of the USA sixteen times together since high school, and took countless trips together within this great nation of ours and laughed together for countless hours until tears rolled down our faces. I can honestly say, I never heard Craig say a mean thing about another person. He was a man of integrity, kindness, and someone who “always” had your back. He was the kind of guy you wanted to be near. I am blessed to have had him in my life for the past 48 years. He was more than a friend - he was like my brother. I miss him already and it sucks knowing that it will only get worse with each coming year. I loved him more than I will ever be capable of conveying in simple words, but I take great peace knowing that the very last words I said to him face to face was “I love you buddy”.  
RIP Schilly - I love you and will miss you brother. David Stahl
