“ *I have so many memories of Dan. He did things that amazed me. He contributed generously to his school and the arts. His latest contribution was creating maps and historical facts of Richfield and Bloomington, which he donated to the Richfield and Bloomington Historical Society. He could repair anything and did fix many things for me over the years, as he did for so many people. If I needed something, I called Dan. I am going to miss being able to chat on the phone with him several times a week. That is going to leave a huge hole in my life. I do know that he left this world the way he said he would like to leave. It was just to soon.*
