“ I grew up with David. We lived across the alley. He had such a great sense of humor. He loved puns. The more groans created the better. He was passionate about things he believed in, like science and history. He was forever curious about space, technology, old coins, new hybrid and electric cars.

Here's on last pun for you, David:

"Someone sent ten different puns to friends, with the hope that at least one of the puns would make them laugh. No pun in ten did."

Yours were always better.

KK

I met David in the fall of 1977 at Northwestern Electronics Institute standing by the entrance to the cafeteria for our orientation. We made small talk as we waited to find out where we needed to go. Of the 8 new classes starting up, we ended up in the same class. We decided to be lab partners and became fast friends. After we graduated, David landed a job with CPT Corp and I worked at KTCA-TV. We rented an apt in Falcon Heights for 3 years when David decided to move closer to his work. We grew apart after that but we stayed in touch now and then. While visiting my mom in Farmington last year I wanted to visit David and found out he had passed, I couldn't believe it! At least I'll always have memories of all the crazy things that we did, I wouldn't trade them for anything. Hope to meet up with you again in the next life.
