“ I always remember the time Dave and I switched clubs and I played left and he switched to right. It was a great time and I will always remember him.

“ Dave was a heck of a softball player, being one of his teammates for years he always was one who got the big single or made the big catch when it really counted. He was very competitive on everything he did. My favorite memory was back in high school we were in a class called CANADA together. The teacher had this assignment we're you did something on CANADA for the end of quarter grade. Well Dave did this long amazing report on Canada which I'm guessing he probably had 25 hours of research or more. Here the night before the assignment was due I still didn't have project done or didn't even have idea what to do. So I always made cookies because I liked to bake to ease life's pressures especially. back then Therefore I came up with making chocolate chip cookie bars making chocolate chips as the Canada flag. They came out so great that teacher gave me a B and gave Dave a B+ on his extraordinary book report. So he always kidded around on how he had this extraordinary 25 hour book report and I had this 25 minute compulsive idea and we both got relatively the same grade. He always kidded me about this but knowing Dave's competitive nature over the years I knew he always felt doing the extra work and the extra mile was always the way Dave thought and would live his life. God Bless you and your family RIP my friend Your friend ECK
