“ I was working on feeling sorry for myself today when I remembered an afternoon in Minneapolis when a group of hams were talking on the air about their troubles. Someone suggested that they buy a keg and get a schoolbus to take them to the casino. At this point, Dean came on the air and volunteered that he and Randy would drive. They were both blind. Dean, thanks for all you did to help others and the good memories you left behind.

“ Oct2,2008 Steve and I had an Interview with Jerry Robbins about the Powder River serial being run on Skyscanner Satellite Radio Network (named so in remembrance of Dean) We Will be running Season 4 beginning next week. And Season 4 of Powder River is dedicated to Dean, by Jerry Robbins.It is so hard to imagine just how many lives that Dean has touched.We do so miss Dean.And the world is a much sadder place without him.I am proud to have known Dean even if it was only for a short time.

“ I was so fortunate to have know Dean. We met on CB radio in the early 70s. His enthusiasm for life and his many talents were an inspiration. He was the first blind person I ever knew, yet, it never seemed to be a handicap. What a terrible loss for our world.

“ Dean (N0HSR) was part of my ham radio family for many years, although we hadn't talked in a while. Like many of you, I felt a sort of family bond to him. He was so knowledgeable and intelligent, and had such a great sense of humor. He could discuss nearly anything with anyone, and I always looked forward to him showing up on either 1.912MHz (so late at night that I would be tired all day at work the next day) or 3.908MHz. I managed to keep up with his projects over the years by searching for him on the internet, plenty of hits for this guy. Dean was a true character, full of life, and I very much enjoyed him and considered him a lifelong friend. I was deeply saddened when I recently learned of his passing. My sincerest sympathies to his family. We had so much fun, the world just won't be the same without Deano.

“ I spent the evening looking up old friends and acquaintances on Google, and came across this guest book for the inimitable Dean Spratt. Like many signers, I met Dean in the dingy studios of KVSC at St. Cloud State, where Dean, cigarette dangling from his mouth, would rifle the record cabinet, carry on one conversation in the studio and one on the phone, AND be hosting a radio show. It didn't take long knowing Dean to forget that he was blind. I am glad to have known Dean, brief though it was, and am impressed by the many lives he touched and influenced.

“ Dean and I worked together on the Sunday morning shift at WJON in late 1976 and early 1977. Dean was the morning DJ and I was a cub reporter/news reader. I'd pick him up in the dark for the early morning drive to work. Once there, I marveled at his ability to spin disks, record and play back phone calls, read the commercials and still take care of the automation on WWJO. I was still struggling to learn the business, but Dean was already a seasoned veteran. We'd stop for fast food and then head for his place at the end of our shift to watch the Vikings. I lost touch with Dean many years ago, but I was saddened to hear about his loss.

“ I just learned of Dean's passing last Saturday, so sorry this is a late entry. I only met Dean a couple of times back in the 1970's. We shared a mutual friend, the late Randy Asp, who introduced us at what was then called a "Jam Line Party." Jam Line was an old phone number, with a busy signal, that we all would pick up the girls on. Dean became my source for information on the best Police Scanners. I valued his opinion very much, as he only bought the best for use in gathering information for his WCCO Radio traffic reports. Later on I occasionally caught Dean on Ham Radio, after I got my Tech license back in 2000. I had been wondering why I haven't heard him on the air for quite awhile. He will be greatly missed. “ Today is Thursday March 15th. Today was much like the Ides of March for me as it must have been for Julius Ceasar as I learned of the passing of Dean Spratt. I found his name listed among the Silent Keys in QST Magazine. Although it's been several years since I last talked with Dean on the radio, I have never forgotten him. He was very active as a Net Control on the 75 meter Ham band, earning a "Ham Of The Month" award for his efforts. I also worked him on the 160 meter band, just to rag chew. He also was a regular QNI on the 2 meter Mille Lacs Lake Area Repeater Net during its run. Leave it to Dean to be the "go to" guy for answers to technical problems. He also turned out to be the "go to" guy in obtaining a piece of gear. After spending months looking for an FL-2100B Amplifier to fill out my FT-101E line, good old Dean came through! I still have that Amp in my shack. Mary and I want to express our belated, yet heartfelt condolences to Carolyn and the family on their loss. Best 73 Dean, You will be missed. “ I am truly crushed to have learned that an unbelievably kind and sweetman was taken away from the rest of the world. It really is a crime! But, I am sure the angels in heaven are cutting it up with Dean now. I just wish the rest of us down here had more time to enjoy that special sense of humor Dean solely possessed. It astounds me that he was way more adept at using a computer than any sighted person EVER dreamed of being!! Likewise, his knowledge of music was as equally amazing. My regards to the Spratt family. I know how much he cherished all of you very much. You have my deepest sympathies.

“ To Dean's family...my deepest sympathy on your loss. I went to school with Dean at St. Cloud and he was a wonderful person. I have many fond memories of him, but one that always stands out was the time I was supposed to do the newscast during his show at KVSC. I had some school work that I needed to complete, so Dean told me to go ahead and tape the news. I was totally surprised when later that evening I heard Dean "reading" the news. When he finished, I called the station and asked him how he had done that. His reply--he put on the tape I'd recorded, played it through his headphones, and "repeated" on air what I was saying through his headphones. I was truly amazed, but guess I shouldn't have been, as Dean was always an amazing person! I know his passing will leave a void for many, but he will also remain in the hearts of the many people whose lives he touched over the years.

“ I was big into CB radio back in the middle to late 1970's ("Music Man" then "Circuit Breaker"). One night as I talked with a buddy ("Dr. Pepper") we heard someone calling CQ. We were operating on channel 38 USB and we let the guy come through. We needed to clarify him a bit because the signal was so strong. He suggested that I should check my SWR...it sounded to him that it could be high. I went ahead and checked it to discover that this guy was dead-on! I had somehow slipped up to a 2:1 match. I was astonished. How could someone tell just by listening that there was a mis-match? I asked another friend about it a few days later and she ("Pink Lady") informed me that I had been talking with Dean Spratt. She has been assisting lost truckers and motorists for many years and explained that if there's ever a time that she can't help someone find their destination she gets ahold of Deano. I never had the pleasure of meeting Dean but was certainly an avid listener when it was traffic time on 'CCO.

“Dean was definitely a staple in the independent, freewheeling, Satellite-Internet broadcasting community. How awful his sudden passing. What a loss. He was like a distant cousin that whenever he'd show up at your door, you were glad to see. Thursday's will never be the same...

“ I was big into CB radio back in the middle to late 1970's ("Music Man" then "Circuit Breaker"). One night as I talked with a buddy ("Dr. Pepper") we heard someone calling CQ. We were operating on channel 38 USB and we let the guy come through. We needed to clarify him a bit because the signal was so strong. He suggested that I should check my SWR...it sounded to him that it could be high. I went ahead and checked it to discover that this guy was dead-on! I had somehow slipped up to a 2:1 match. I was astonished. How could someone tell just by listening that there was a mis-match? I asked another friend about it a few days later and she ("Pink Lady") informed me that I had been talking with Dean Spratt. She has been assisting lost truckers and motorists for many years and explained that if there's ever a time that she can't help someone find their destination she gets ahold of Deano. I never had the pleasure of meeting Dean but was certainly an avid listener when it was traffic time on 'CCO.

“ My condolences to the Spratt family. I never met Dean, but listened to him for many years on WCCO Radio where he was the on the air "Traffic Guy". I always remember when he married Carolyn, and sang to her at their wedding, "I Only Have Eyes For You", which was replayed on WCCO. What a beautiful voice Dean had and what a powerful message.

“ Dean was one of the first people I met at KVSC and made me feel so welcome that it was the place I connected at St. Cloud State. It will forever be among the "good times" of life and his friendship is such an important reason why it is. The passion and skill that he brought to everything he did is something we should all strive to achieve. Dean, rock on!

“ I am heartsick at the loss of a very wonderful person. Dean was one person I 'took' to immediately. When I started to do Skybird radio, Dean was very encouraging. On Thursday nights, I would check out my material for my Friday Night Show. Dean would come on and, darn, if he didn't talk about some of the same things I was going to. Well, I couldn't compete with his renditions, so I would cut out my news. I wish I had known more about him, but still felt like I have known him. Dean was a rarity and he will be missed by many. My condolences to his family and friends. I know how I feel, I can't imagine the pain you must be feeling. There will be a big party in heaven going on when we will all meet up with him there. God bless.

“ I did not know Dean for very long, perhaps about 4 years. I had heard his name before, I knew he was the blind guy who did traffic reports on WCCO, but that's about all I knew. I didn't grow up here in the Cities, so I never heard him on the air until after I met him, when he was working at Metro Networks. I am deeply saddened by his passing. As many have said, Dean was one of those dynamic people whom you don't have to know for long without feeling like you've known him forever. I came to know Dean through his friendship with my boyfriend Curt. We were first introduced over the 2 meter ham band. The two of them were talking as we were driving somewhere. I thought to myself, he sure seems nice, and Curt encouraged me to say something, but I was too shy. Eventually I did speak to him over the radio, and was very glad I did. I will not forget something that happened the first time we actually met in person. Curt and I picked up Dean to go to Rochester to help another friend with wiring up his house for radio. During the time we were there, Carolyn called him for something, and as he hung up he said, "Goodbye Sweetheart, I love you." He said it with such tenderness, it really touched me. That and the fact that he wasn't afraid to say it in front of all the guys. I got to know Dean better over these last years, and I became a fairly regular listener to Thursday Night Potpourri and enjoyed it a lot. Thursdays just didn't seem complete unless I had listened to some portion of the show during the evening. When Dean and all the boys started talking shop, it all went a bit over my head, but I will always remember his kind heart and good humor. I will miss that wonderful, contagious laugh. My deepest sympathy to all of Dean's family. My thoughts and prayers are with you.

“ Many times I have heard people talk about the hole in your heart created by the loss of someone close to you. Now I understand. Our Minds attempt to fill that hole with random emotions such as sadness, fear, rage, confusion, and regret. For myself it seems the only thing that begins to even attempt to fill that void is the comfort in knowing that we made the most of the time we had together. Never in my life have I been involved in such a tragic event, nor have I ever wanted so badly to bear witness to such a life spanning event. The pain it brought me to experience your loss is overwhelming, but the peace I feel to have been by your side through your last breath is unimaginable. Your time with us was far too short. The multitudes of people whose lives you touched are all better because of you. You are an amazing man. You will be loved forever. You will never be forgotten. I love you Dad.

“ Heartfelt condolences to the Spratt family. I was stunned to hear that old Deano is now doing traffic reports from Heaven. And being a NASCAR fan, Benny Parsons was probably there to greet a fellow broadcaster. I worked with Dean at Metro Networks before I too got the axe for budgetary reasons when Metro was purchased by Westwood One. I too have been involved in racing for a very long time and moved to North Carolina to try out for the "Big Show." I can still hear Dean's gravelly voice, peppered with the occasional off-mike obscenity when a recalcitrant tape machine wouldn't work to his satisfaction. We could talk about racing non stop, but I had scripts to write and he had scripts to read. When he talked about a particular race, Dean would say he "watched" it on TV, just like I did. I always wanted to ask he what he saw. My guess is his "vision" was much more vivid than mine. The old radio tagline "I saw it on the radio" was truth for Dean. Now I will have to wait until I get to the celestial media center in the sky ask that question. Then I will be talking to a guy with infinite eyes. Godspeed Deano

“Dean and I were friends as kids. His grandparents were our closest neighbors and best friends. He would visit in the summer, and we often played together. In our teens, my family and I visited him and his family. Dean and I went to his bedroom to visit and play. After a bit of time sitting in dark he said, "Oh, I forgot, you need a light." As he turned on a very dim light by his bed, a flash of realization hit me that, in his environment, I was the one who was handicapped. Fred Metzger North Dakota

“ My most sincere condolences to the entire Spratt family. I'm so sorry for your loss; way before Dean's time. I'm another guy who met Dean at St. Cloud in Mass Communications. I was impressed with what he did in spite of his disability. His blindness didn't slow the man down at all. Although we haven't spoken in years, I always felt we'd connect again, sometime. It was great telling people that you knew the 'CCO traffic guy and he was blind. People didn't believe it! Dean had so many ABILITIES that took him beyond his disability. Many share in your loss. God bless. Dean, rest in peace.

“ *To; Carolyn, children, & Mary Spratt Family. Our condolences to you and your families. We haven't gotten the chance to visit with all of our cousins for quite a few years. I guess it's time for another Spratt reunion! When I read everyone's entries in this guest book I realize what kind of a man Dean was and how much he touched people's lives. He was truly an inspiration to many! Our thoughts and prayers are with you all. God Bless.*

“ I knew Dean many years ago when we were CB'ers. We had some great times together back then. Even though we lost touch over the years, I thought of him often. Whenever I would hear his voice on the radio, it would bring back fond memories. One of the fondest is how beautiful his voice sounded when he sang at my wedding. As I was reading the guest book, I was surprised to find out that I was not the only person who let him drive my car. GREAT TIMES. WONDERFUL MEMORIES. My sincere condolences to your entire family. God Bless.

“ I first heard Dean doing traffic on WCCO in the late 1990s. Then, one day, I was tuning around the 2 meter ham band and heard that familiar voice. I had no idea that he was a ham radio operator, like I was! The signal was strong and it turned out that he was only about 5 miles from my house. Over the last 8 years we've had fun chatting about computers and other techie topics. One vivid ham radio memory I have is from sometime in the last year. It was a weekend afternoon and Dean was beaming about a wonderful turkey dinner "with all the trimmings" he just had with the family - and it wasn't even Thanksgiving! His appreciation for that simple family moment made me smile. I will miss him and miss being able to pick up the microphone and give him a shout on 2 meters. 73s Dean, from KA0YWN

“ My deepest sympathy to the Spratt Family - I met and knew Dean in St. Cloud 32 years ago - we played in a band together and I was always amazed at his talent, positive attitude and lust for everything he did. He used to love riding on the back of my Norton motorcycle! I am proud to say he was my friend. I am sorry that I am unable to attend the service today, but I will be there in spirit! He will be greatly missed.

“ I played with Dean in a Band called “Friends” some 30yrs ago while he was working at WJON in St. Cloud, Mn. He was one of the greatest musicians I ever had the opportunity to be on stage with. His voice had a range and quality that blew me away and his abilities on the Hammond Organ were flawless. I remember his rendition of “Eagles” songs he’d perform that in my eyes were the envy of the Eagles themselves. I did cross the line one night with Deano. I believe it was a gig at the Windjammers club. We were on break and about 5 of us were sitting at a round table when Dean lit a match to light his cigarette. Feeling spunky I decided to blow out the match and watch him wonder what happened as he tried to light his cigarette. His immediate comment was “Justin you ***hole”. It amazed me how he picked me out of the crowd as the culprit; I learned never to do that again. I learned many other things from Dean but probably most important was to push myself, not accept status quo. He could see abilities in others they themselves couldn’t see and he wouldn’t let you sluff by... I am so thankful to have had the opportunity to know Dean and give my deepest condolences to Dean's family.

“ I, like the rest have a Dean story and I tell it when I want to. We had experienced KVSC at st cloud state like lots of others here, and the time was memorable for all of us, and that too is where i met dean. but about 3 years later, I was out of radio for a bit, (I liked to go back and forth !) And i was working as an autoparts magnate and assistant manager at a Crown Auto Store on Lake Street and Nicollet in Minneapolis. In walks Stephanie and Dean. I say hey how are you doin? What a small world! Stephanie says great how are you? Then she says Dean do you know who this is? And with a smile he says of course Its the MOONBEAR! (this name seems to stick for everyone in my past!) Was I amazed? Not really but you know how people from your past kind of just say hi under their breath or totally ignore you or avoid you or gracefully excuse themselves and not acknowledge you at all? Yeah well that was not Dean's style! So I offer my prayers to your family and hope you are warming up a space for me Dean! Tell them the Moonbear is coming later! I am proud to say Dean was and is my friend.

“ So sad to hear of Deans passing...I knew Dean back in around 1962- we had class together at Corcoran Elementary School in South Minneapolis. I remember Dean as always smiling, laughing, and he always had a pleasant response whenever I greeted him in the halls. In Junior High and High School, my love of cars led us in different directions. Years later, I heard a traffic report one morning featuring Deano Spratt and I thought, my gosh, I wonder...I checked it out and discovered that yes, it was indeed my grade school buddy. From that point on, it was always in the back of my mind that I should get together with Dean and let him know he was a positive influence in my young life. Inadvertently, by some measure, he taught me tolerance, humility, compassion, and grace. I never let him know, I guess I will wait now until we meet again. My thoughts and prayers go out to Deans families- the one he was in when I knew him, and the one he helped create in later years.

Jean Bushey - January 24, 2007 at 12:00 AM

“As a broadcast personality, co-worker and, most of all, friend, Dean was one in a million! He and I worked together in the salad days of WWJO, St. Cloud 30 years ago. It was amazing what those wonderful ears of his could detect just listening off the air. He'd say, "Paul, there's a slight flutter in the right channel of tape deck #2." I couldn't really hear it but I'd go along with it and ask, "How do you know it's deck #2?" He'd say, "Well deck #1 won't pass frequencies higher than about 13,000 HZ and I know I was hearing notes higher than that." My jaw would drop and I'd say "Man, I wish I could hear things like that." To which he'd say, "You can, Paul. You just haven't had to yet!" I'll also never forget his "Let's just do it right now!" spirit. WWJO, in those days, was a unique mix of live, live assist and fully automated programming. On Sundays we ran untended. I'll never forget how, on stormy Sundays (there seemed to be a lot of them in the summertime of 1977), a static charge from a lightning strike from even five or ten miles away could mess up the automation memory controller. This was a device that would "walk" through a preset and oft-repeated set of about 200 instructions in a day's time. The controller actually contained 4000 "addresses", numbered #0000 through #3999. We only used the first 200. When it would be disrupted in an electrical storm, it usually jumped to an address with no instruction...so either the station would go silent OR, worse, every source of audio would play at the same time! The ONLY way to remedy it was to reset the automation controller back to #0000. The station could then sound normal again. This was BCP (Before Cell Phones), so the procedure Dean and I had in place was like old time volunteer fire department rules: we'd drop whatever we were doing, ride to the studios on SE Lincoln, and reset the controller. The first one there got the privilege of resetting. In one stretch of time, he was either on hand or got there before me about 3 times in a row. I'd arrive just as operational had returned to normal. He'd proudly tell me, "I wasn't sure when you'd get here, so I just reset it." The next time we both arrived at the same time. Dean went straight to the controller keypad and asked me, "Paul, what address is showing?" I answered, "201". He then started counting fast, one time for every time he tapped the "Manual Advance" button. I said,

"Dean, you can reset with the tenkey pad." He said, "Yeah, but I don't know how to do that. I just find out what address is showing, subtract from 4000, and count. It works!..." Now I remember celebrating part of my 8th birthday counting up to 1000. I didn't particularly like it and abstained from ever doing it again. I eventually taught Dean how to use the tenkey pad, but in the thirty years since, as an illustration of creative resourcefulness to people I've trained, I've endlessly told the story of how I counted to 1000 once a long time ago...and Dean counted to 3800 four times in a month! With positive results every time!

“Dean and I were friends as kids. His grandparents were our closest neighbors and best friends. He would visit in the summer, and we often played together. In our teens, my family and I visited him and his family. Dean and I went to his bedroom to visit and play. After a bit of time sitting in dark he said, "Oh, I forgot, you need a light." As he turned on a very dim light by his bed, a flash of realization hit me that, in his environment, I was the one who was handicapped. Fred Metzger North Dakota

“ *My deepest sympathy to the Spratt Family - I met and knew Dean in St. Cloud 32 years ago - we played in a band together and I was always amazed at his talent, positive attitude and lust for everything he did. He used to love riding on the back of my Norton motorcycle! I am proud to say he was my friend. I am sorry that I am unable to attend the service today, but I will be there in spirit! He will be greatly missed.*

“ To Dean's Family, I am so sad for your loss. I raised my kids on CCO and decided on a daily wintering morning whether we would venture out. He was a "CLASSIC" man. An everyday man, an everyday Dad man. I remember how he loved talking about his kids on CCO. I remember I was on my way to have a baby and he had a baby the same day. My heart and prayers go out to you.

“ To some he was Dean, to others Deano and also know as Spratt, on 'cco, But to me, he was dad, father, someone to look up to. He has influenced my life, just as much as everyone elses. He was the kind of person who you would meet, and ten seconds later, be talking like you new each other for years. He has been a wonderful dad, and I am so greatful for the 12 years I got to spend with him. May he rest in peace, in the hands of God.

“ My deepest sympathy to the entire Spratt family. I know how close the entire Spratt family was and how it will be affected by this, I have know the Spratt Family from the Neighborhood and my brothers that have went to school with him and his sisters in the late 60's and early 70's and I went to school with his younger brothers and sisters. One thing that I'll always remember is the ear he had when Kelly (brother) was trying to set up his car stereo in the family garage.... You couldn't ever get anyone better to do this and the insight he always had. May God comfort the Spratt family during these hard times.

“ I will always remember those conversations of years past at SCSU. Dean, pinching his eyes, rocking back & forth, and showing his agreement by slapping his knee “Vell, Yah!” Rambling down Fourth Ave. South in St. Cloud on a summer day with his hand holding onto my elbow. Nothing much to do... listening to “Casey Jones”, “Strange Days” and “Street Fightin’ Man”. Radio was the place to be...only on KVSC. Ramble on...Dean Bill Bruns Redlands, CA

“ *I had the pleasure of meeting Dean via my husband Dave Daniel. Even though I did not know him as well as Dave and others, Dean was an awesome person and musician. When I first met Dean, he seemed like a real easy going guy, had a good sense of humor and just made you feel comfortable from the get go. It's been quite a few years since I heard him sing/play, some of my favorites were hearing Dean play/sing any Eagles tune. I love to hear Dave tell me stories about his playing days with Dean! It touches me to know that he left such a notable impression and everlasting memories with Dave. My condolences to the Spratt family, Dean will always be in your hearts and may you find comfort in knowing that he will be forever remembered by many.*

“ My deepest sympathy to the Spratt Family. I worked with Dean for several years. Not directly but in another division of company. I also worked with him at WCCO. Dean was a magnificent person. He could not see-but he saw more than all of us. I would seek Dean out to discuss all topics under the Sun. Each and every time we spoke, I felt I came away better informed and touched by a friend. To his Son in the Army (don't know your name), your Dad told me a story that he was most proud of. It was about your service in Iraq (and thank you for that)and the time you blew up a latrine! FABULOUS! Never met you but admire you. Dean Spratt was one of a kind, brilliant, a friend and always always willing to help. I will miss you Dean. I will not ever forget you.

“ To the family,As one who has worked in broadcasting most of my life, I have met many and honestly revered Dean as one of the most "real" people I have ever met. At WCCO, Dean was one of the first to greet me when I arrived and I will always remember his genuine concern when I left. I know many got to "know" Dean from his traffic reports and love of Nascar, music and other interests but the Dean Spratt I will always remember was one who cared a heck of lot more about the people he worked with then the company he worked for.

“ I'LL NEVER FORGET THE TIME I MET DEAN. I WAS ON A FIRE CREW THAT RESPONDED TO HIS BUILDING FOR A FIRE ALARM, UPON ARRIVING HE WAS OUTSIDE WAITING FOR US READY TO TAKE US TO THE ALARM BOX FOR THE RESET AND HELP OUT, WE KNEW WHO HE WAS BY THE VOICE RIGHT AWAY. WE HAD MOVED DOWN FROM THE DOOR A FEW FEET SO WHEN HE WHIRLED TO HEAD INTO THE BUILDING HE RACED RIGHT INTO THE BUSHES NEXT TO THE DOOR, THERE HE WAS THRASHING AROUND, A FIREMAN WAS HEARD TO SAY, "AH DEANO? I THOUGHT YOU SAID YOU KNEW WHERE THE ALARM BOX WAS...I DON'T THINK IT'S IN THERE!?" SO WE HAD A GOOD LAUGH, WE FOUND THE ALARM BOX AND AFTER HE SHOWED US ALL THE RADIOS AND STUFF HE HAD FOR HIS REPORTS, GREAT GUY, SAD LOSS FOR ALL, KEVIN MCKINSTRY MPLS FIRE RETIRED

“ I was hurt beyond life that we didn't get 30 more years together, but now I feel so blessed to have gotten the 16 we did; blessed with 4 wonderful boys and 2 equally wonderful girls, all of whom love him dearly. 16 exciting years of marriage (never a dull moment, jam-packed with technology, and many, many fond memories), and friends like all of you. Dean knows and loves all of you, and it warms my heart beyond belief to see his many friends write here. I hope you know how much he cared for all of you. If you knew him well, you knew with Dean there was no "grey" area. It was black or white. Period. He was to the point, direct, fun, smart, compassionate, curious, helpful, comical...there aren't too many adjectives that don't describe him, and I could go on forever. If you didn't know him well, you knew all of this too. He "saw" beyond what we see with our eyes. He stood up for what was truth. He was never afraid to voice his opinion when someone or something was wrong. I am devastated without him, and forever honored to be called Mrs. Dean Spratt. Our two girls are getting to know him better through you, his friends, through your kind words and recollections of his works. Thank you for being there for Dean and our family. He was truly an inspiration to us, as are all of you, his friends. God Bless you all. The world is not that big of a place.

“ may i extend sincere condolences to dean's family and hope that your memories will help ease your sadness.i'm sorry i'm unable to join in the celebration of his life in person but i shall be there in spirit.we were first (fast) friends at kvsc-fm - it was a humble start of many broadcast careers and a life of adventures.dean offered to fix my console TV (with tubes!) in st.cloud and i offered to pay him with chocolate. i always told him the green m&m's tasted best! he pretended to believe me.his favorite movie was "fantasia".many of our friday night softball games were better because dean was the umpire. we agreed to abide by his calls.i can still cringe at the thought of a door closing on his fingers (!) at a party. i thought for sure there might be permanent damage. he quickly forgave my clumsiness and toasted with another beer.at the time i was horrified to think kevin let dean drive the vw beetle in an empty parking lot! and it didn't take me too long to think it's great he got to experience so much of life - his way. it was always lively and interesting to be around dean. everything seemed possible. it's a privilege to know his gifts. and now maybe a star with a new glow. time is sometimes the greatest distance - ben was about 5 the last time i saw dean, we talked a few times after that and then his life grew richer again with his new family; carolyn and the kids.dean, i always wanted to be a backup singer in a band, maybe you'll save a spot for me in your heavenly act. you know i can't sing but maybe i can sway in the background. blessings to dean's family and friends around the world. most fondly,

“Twin Cities radio has lost a legend and a true broadcast pioneer. Dean's amazing ability to accurately and vividly describe highly detailed traffic information gleaned from a bank of scanners just moments before -- set the standard for all those who followed. The fact that most listeners, especially early in his career, had no idea he was blind speaks for itself. As a former colleague of Dean's, I had the privilege of watching him work up close. He was uncompromising when it came to the quality and content of his reports and expected the same degree of professionalism from others. His technical skill, knowledge and enthusiasm for all things radio elevated the performance of everyone around him. From NASA to NASCAR and beyond, Dean's expertise was nothing short of amazing. His unique blend of talent, personality and loyalty to friends truly made him one of a kind. Dean's passing leaves a void in the radio community that will not soon be filled. My deepest sympathy to Carolyn, his children and extended family.

“ My condolences to Carolyn and everyone else in Dean’s family. Dean and I met in 1972 when I arrived in St. Cloud to pursue a degree in Print Journalism. Once on campus I discovered there was a college Radio Station, and when I went there to check it out dean was one of the first people to welcome me. I was born legally blind, and like Dean, I had a childhood dream to be a Radio Broadcaster. My hopes of realizing this dream had been dealt a serious setback when I was denied acceptance to Brown Institute, the then most respected school for those aspiring to a career in Radio. Meeting Dean restored my belief in my potential to be a Radio broadcaster. Here was a Blind Person who wasn’t just learning to be a Broadcast Professional, but rather someone who was already there and had not yet been discovered by a Commercial Radio Station that would be enriched by having him on their team. Dean became a teacher, a colleague and a very good friend. We celebrated each others successes in Radio, and in life, and supported one and other during times of setback. Whether it was his commitment to his family, enthusiasm for being on the cutting edge of technology, his passion for NASCAR, his love of performing (or just listening to) music, his insatiable appetite for engaging conversation or his brilliance with all things Radio Dean was a very special person, and those of us who knew and were fortunate enough to have been his friends were blessed with that relationship. While we haven’t talked as much over the past several years as we used to, I feel an emptiness knowing I can’t just pick up the phone and call for one of those always engaging chats that often left me feeling better at the end than when the talk began. Peace my friend, and ease into your next life knowing that you left a lot of us better off for having known you in this one. Till we meet again.

“ I went to high school with Dean and i can close my eyes and picture him running thru the halls and up and down stairs. Dean had a great sense of humor and was the instigator of many practical jokes as well as the victim. This trait provided for many humorous memories after high school as one of many friends amongst cb'ers. Although we lost track of each other over the years I have spent numerous times regaling others about the hundreds of times that Dean kept all of us laughing so hard that our sides would hurt. Deepest sympathies to the Spratt family Dean may be gone physically but he will continue to live in my memories.

“ may i extend sincere condolences to dean's family and hope that your memories will help ease your sadness.i'm sorry i'm unable to join in the celebration of his life in person but i shall be there in spirit.we were first (fast) friends at kvsc-fm - it was a humble start of many broadcast careers and a life of adventures.dean offered to fix my console TV (with tubes!) in st.cloud and i offered to pay him with chocolate. i always told him the green m&m's tasted best! he pretended to believe me.his favorite movie was "fantasia".many of our friday night softball games were better because dean was the umpire. we agreed to abide by his calls.i can still cringe at the thought of a door closing on his fingers (!) at a party. i thought for sure there might be permanent damage. he quickly forgave my clumsiness and toasted with another beer.at the time i was horrified to think kevin let dean drive the vw beetle in an empty parking lot! and it didn't take me too long to think it's great he got to experience so much of life - his way. it was always lively and interesting to be around dean. everything seemed possible. it's a privilege to know his gifts. and now maybe a star with a new glow. time is sometimes the greatest distance - ben was about 5 the last time i saw dean, we talked a few times after that and then his life grew richer again with his new family; carolyn and the kids.dean, i always wanted to be a backup singer in a band, maybe you'll save a spot for me in your heavenly act. you know i can't sing but maybe i can sway in the background. blessings to dean's family and friends around the world. most fondly,

“ To Dean's Family, I am so sad for your loss. I raised my kids on CCO and decided on a daily wintering morning whether we would venture out. He was a "CLASSIC" man. An everyday man, an everyday Dad man. I remember how he loved talking about his kids on CCO. I remember I was on my way to have a baby and he had a baby the same day. My heart and prayers go out to you.

“ This young wannabe musician first met Dean through amature radio back in the 70's in St. Cloud. I'd go over to his house and he'd knock my socks off with his piano playing and singing. I was just a teenager but soaked up every minute watching him play. It was always a treat to hear him on the radio giving the traffic updates. Good memories of a good guy.

“ My condolences to Carolyn and everyone else in Dean’s family. Dean and I met in 1972 when I arrived in St. Cloud to pursue a degree in Print Journalism. Once on campus I discovered there was a college Radio Station, and when I went there to check it out dean was one of the first people to welcome me. I was born legally blind, and like Dean, I had a childhood dream to be a Radio Broadcaster. My hopes of realizing this dream had been dealt a serious setback when I was denied acceptance to Brown Institute, the then most respected school for those aspiring to a career in Radio. Meeting Dean restored my belief in my potential to be a Radio broadcaster. Here was a Blind Person who wasn’t just learning to be a Broadcast Professional, but rather someone who was already there and had not yet been discovered by a Commercial Radio Station that would be enriched by having him on their team. Dean became a teacher, a colleague and a very good friend. We celebrated each others successes in Radio, and in life, and supported one and other during times of setback. Whether it was his commitment to his family, enthusiasm for being on the cutting edge of technology, his passion for NASCAR, his love of performing (or just listening to) music, his insatiable appetite for engaging conversation or his brilliance with all things Radio Dean was a very special person, and those of us who knew and were fortunate enough to have been his friends were blessed with that relationship. While we haven’t talked as much over the past several years as we used to, I feel an emptiness knowing I can’t just pick up the phone and call for one of those always engaging chats that often left me feeling better at the end than when the talk began. Peace my friend, and ease into your next life knowing that you left a lot of us better off for having known you in this one. Till we meet again.

“ I went to high school with Dean and i can close my eyes and picture him running thru the halls and up and down stairs. Dean had a great sense of humor and was the instigator of many practical jokes as well as the victim. This trait provided for many humorous memories after high school as one of many friends amongst cb'ers. Although we lost track of each other over the years I have spent numerous times regaling others about the hundreds of times that Dean kept all of us laughing so hard that our sides would hurt. Deepest sympathies to the Spratt family Dean may be gone physically but he will continue to live in my memories.

“ To Carolyn, children and Spratt Families, I am a younger cousin of Dean's on his dad's side. Uncle Ray - God bless his soul. Growing up we only made it to Mpls. twice that I know of and not much more than that since. Your family came here more often, but had so many relatives to see that we were lucky to spend a few hours getting to know you. Reading through the guest book I can see that we have truly missed out! It tells us that Dean had many friends, was an inspiration to others and had a voice that the people of Mpls. new and were proud of. Our deepest sympathy to you on your loss. Know that our thoughts and prayers are with you during this sad, sad time.

“ I was hurt beyond life that we didn't get 30 more years together, but now I feel so blessed to have gotten the 16 we did; blessed with 4 wonderful boys and 2 equally wonderful girls, all of whom love him dearly. 16 exciting years of marriage (never a dull moment, jam-packed with technology, and many, many fond memories), and friends like all of you. Dean knows and loves all of you, and it warms my heart beyond belief to see his many friends write here. I hope you know how much he cared for all of you. If you knew him well, you knew with Dean there was no "grey" area. It was black or white. Period. He was to the point, direct, fun, smart, compassionate, curious, helpful, comical...there aren't too many adjectives that don't describe him, and I could go on forever. If you didn't know him well, you knew all of this too. He "saw" beyond what we see with our eyes. He stood up for what was truth. He was never afraid to voice his opinion when someone or something was wrong. I am devastated without him, and forever honored to be called Mrs. Dean Spratt. Our two girls are getting to know him better through you, his friends, through your kind words and recollections of his works. Thank you for being there for Dean and our family. He was truly an inspiration to us, as are all of you, his friends. God Bless you all. The world is not that big of a place.

“ I played with Dean in a band since 1991. We spent many hours before, during and after the gigs discussing everything from Nascar to politics, and of course telling jokes. Dean had a wonderful sense of humor. He was a true professional, always on time and ready to go, always giving 110%. God's band got a whole lot better last Saturday. He gave 110% to his family too. Nothing made him more proud than talking about Carolyn and the kids. He was a very caring person who will be deeply missed by all of us.

“ I will always remember those conversations of years past at SCSU. Dean, pinching his eyes, rocking back & forth, and showing his agreement by slapping his knee “Vell, Yah!” Rambling down Fourth Ave. South in St. Cloud on a summer day with his hand holding onto my elbow. Nothing much to do... listening to “Casey Jones”, “Strange Days” and “Street Fightin’ Man”. Radio was the place to be...only on KVSC. Ramble on...Dean Bill Bruns Redlands, CA

“ I had the pleasure of meeting Dean via my husband Dave Daniel. Even though I did not know him as well as Dave and others, Dean was an awesome person and musician. When I first met Dean, he seemed like a real easy going guy, had a good sense of humor and just made you feel comfortable from the get go. It's been quite a few years since I heard him sing/play, some of my favorites were hearing Dean play/sing any Eagles tune. I love to hear Dave tell me stories about his playing days with Dean! It touches me to know that he left such a notable impression and everlasting memories with Dave. My condolences to the Spratt family, Dean will always be in your hearts and may you find comfort in knowing that he will be forever remembered by many.

“ My deepest sympathy to the Spratt Family. I worked with Dean for several years. Not directly but in another division of company. I also worked with him at WCCO. Dean was a magnificent person. He could not see-but he saw more than all of us. I would seek Dean out to discuss all topics under the Sun. Each and every time we spoke, I felt I came away better informed and touched by a friend. To his Son in the Army (don't know your name), your Dad told me a story that he was most proud of. It was about your service in Iraq (and thank you for that)and the time you blew up a latrine! FABULOUS! Never met you but admire you. Dean Spratt was one of a kind, brilliant, a friend and always always willing to help. I will miss you Dean. I will not ever forget you.

“ I'LL NEVER FORGET THE TIME I MET DEAN. I WAS ON A FIRE CREW THAT RESPONDED TO HIS BUILDING FOR A FIRE ALARM, UPON ARRIVING HE WAS OUTSIDE WAITING FOR US READY TO TAKE US TO THE ALARM BOX FOR THE RESET AND HELP OUT, WE KNEW WHO HE WAS BY THE VOICE RIGHT AWAY. WE HAD MOVED DOWN FROM THE DOOR A FEW FEET SO WHEN HE WHIRLED TO HEAD INTO THE BUILDING HE RACED RIGHT INTO THE BUSHES NEXT TO THE DOOR, THERE HE WAS THRASHING AROUND, A FIREMAN WAS HEARD TO SAY, "AH DEANO? I THOUGHT YOU SAID YOU KNEW WHERE THE ALARM BOX WAS...I DON'T THINK IT'S IN THERE!?" SO WE HAD A GOOD LAUGH, WE FOUND THE ALARM BOX AND AFTER HE SHOWED US ALL THE RADIOS AND STUFF HE HAD FOR HIS REPORTS, GREAT GUY, SAD LOSS FOR ALL, KEVIN MCKINSTRY MPLS FIRE RETIRED

“ My deepest sympathy to the entire Spratt family. I know how close the entire Spratt family was and how it will be affected by this, I have know the Spratt Family from the Neighborhood and my brothers that have went to school with him and his sisters in the late 60's and early 70's and I went to school with his younger brothers and sisters. One thing that I'll always remember is the ear he had when Kelly (brother) was trying to set up his car stereo in the family garage.... You couldn't ever get anyone better to do this and the insight he always had. May God comfort the Spratt family during these hard times.

“ You were 13½ years older than me, but we shared a special connection; me being the youngest and you being the oldest. Even though I do not understand God’s master plan and will always wonder “Why?”, I know that He knows what is best and we must trust in Him. Maybe Lisa was right; God was having a computer problem and needed your help. You were such a loving man. The love you and Carolyn shared was a love so great others can only hope to experience a love like that. Carolyn is one of the most loving, compassionate and giving people I have ever met. She is always doing for others and does not have a selfish bone in her body. She is and always will be a member of this family. I only hope that she doesn’t get sick of us; you know how overwhelming and loud we can be. We love her so much, and I am proud to have her as my sister-in-law. Ben has grown into such a fine young man. He is strong and smart and ambitious just like his Dad. We are so proud of him. Elizabeth is amazing. She is such a smart young woman; getting straight A’s in high school. We all know how very proud you were of her, and we are too. She has the intelligence and drive to be anything she wants, and she will go far in life. And then there is Lisa. Lisa has acquired your love of music and your musical talent. I understand she is becoming quite the musician and has a beautiful voice, just like her Dad. I only hope that she is not as stingy with singing for her family as you were! We are very proud of her too. I got your message tonight via the cup incident. I don’t know what you were trying to tell me, but I know it was you. If you are wondering about your family, rest assured that we are going to take good care of them for you. We are always going to be there for them and will help them in any and all ways necessary. I love you big brother, and I will miss you dearly. One last thing; give Dad a kiss and a hug for me. Until we meet again . . .

Here was a Blind Person who wasn't just learning to be a Broadcast Professional, but rather someone who was already there and had not yet been discovered by a Commercial Radio Station that would be enriched by having him on their team. Dean became a teacher, a colleague and a very good friend. We celebrated each others successes in Radio, and in life, and supported one and other during times of setback. Whether it was his commitment to his family, enthusiasm for being on the cutting edge of technology, his passion for NASCAR, his love of performing (or just listening to) music, his insatiable appetite for engaging conversation or his brilliance with all things Radio Dean was a very special person, and those of us who knew and were fortunate enough to have been his friends were blessed with that relationship. While we haven't talked as much over the past several years as we used to, I feel an emptiness knowing I can't just pick up the phone and call for one of those always engaging chats that often left me feeling better at the end than when the talk began. Peace my friend, and ease into your next life knowing that you left a lot of us better off for having known you in this one. Till we meet again.

“ My deepest condolences to Dean's family. I was fortunate to have been introduced to Dean in the 1980's when he worked at WCCO radio and I was at WCCO TV. His deep love for broadcasting was evident then, and it remained exactly the same 20 years later as he did his satellite program. He was the consummate professional. You are in my prayers.

“ I have had the pleasure of working with Dean since 2000, and I have never meant a more professional broadcaster, and one who had more fun with his talent than anyone else I can remember. He touched a lot of people in a most positive way, and his laugh will always be a part of my memories of him. The worlds of Minneapolis/St Paul Music, Broadcasting, and satellite audio will all be dimmer for his passing, but he watches us from the heavens and will always be nudging our boards to get the levels "just right". Dean, buddy, we'll miss you but we'll never forget you.

“Dean was my inspiration and shaped my life. We met when we were teenagers and were friends throughout our lives. Dean could do anything he set his mind to. I’ve never known a stronger, more intelligent, or energetic person. He took pride in being an expert in his chosen interests and people sought his advice. Everyone liked Dean. He had more stories and jokes and could tell them better than anyone. He was fearless and wouldn’t back down from what he believed was right. He was a great musician with perfect pitch. And later in our lives we finally were able to be in a band together like we always talked about. What fun we had. Though we drifted apart these last few years, Dean will always be in my thoughts. Knowing him has helped guide me through my daily life.

“ *Trust. Absolute, unmitigated, unflinching trust. Dean and I were college buddies. We "found each other" at KVSC-FM in St. Cloud, MN in the early 70s. Both rebellious, naive, hungry to learn, and mischievous, we were sympatico. But from the beginning, trust ruled everything we did together. He trusted me absolutely and that special and enormous responsibility helped me grow to be the person I am today. For that short time, I became his second set of eyes...and what a huge responsibility that was. I trusted him, to be honest and direct - to tell it like it was. He did. Always. From late nights in one of our apartments, sharing stories of the day and listening to and discovering great music, to summer day trips to the quarries for some beer and swimming, to working together in the studio, he was always there for me. The mic is live, Buddy. It's your show.*

“ I've only known Dean since he joined the WOKIE Radio Network, in the mid '90s. And i didn't really get to know him well untill the last few years. In that time, i've come to know him as as one of the topmost notch people around. I missed out on a lot of stuff; but the time in which i've had the opportunity to interact with him, i have enjoyed immensely--right down to little things, like experimenting with new and interesting ways to hand off from our show to his, every thursday--which he always handled beautifully, no matter what disastrous curves i occasionally threw at him, with little or no warning. I'll miss that, and everything else. You totally rocked, Dean! We miss you. You said it best in some of your last week's words: "This sucks!"

“ Carolyn and Family, My condolences on Dean's passing. I first met Dean while working at WCCO-Radio in the early 1990s, and we enjoyed a great friendship ever since, fueled (no pun intended) by our mutual love of NASCAR. One of my favorite memories of Dean was when he and I went to interview Dale Earnhardt, who was in town for a GM event. Dale's respect for Dean's racing knowledge was clearly evident, though he did find it hard to believe when Dean said he was a traffic reporter. The photo of the three of us is still one of my favorites. Deano will certainly be missed by many.

“Dean and I met about 15 years ago, as listeners and participants on a national satellite radio talk show. When I found out that we were located about 5 miles from each other, I drove to his house and tuned up his satellite dish. We became fast friends, culminating in a weekly national talk show where we shared information about satellite technology and just about anything that was worth discussing. Dean had the ability to make intelligent conversation on just about any subject, and was a joy to work with. It would be difficult to estimate how many thousands of people around the world looked forward to his satellite and Internet-delivered radio programming, other than to say that he touched the lives of many people. His quick wit and caring attitude will be greatly missed. Our prayers are with Carolyn and the family.

“ Dean Spratt (N0HSR) a silent key Last Saturday night, Dean went to bed early, complaining of a headache. On Sunday morning, he was rushed to the hospital and diagnosed with a massive stroke in blocking 95% of the main artery to the brain stem. Over the last week, we believed Dean was going to recover. He was hearing and understanding people, recognizing his friends and family, and speaking, although his speech was labored. I'd planned to visit Dean in the hospital some time this week. On Friday night, Dean took a turn for the worse and was placed on a respirator. He lost consciousness and the family met to decide how aggressive the treatment should be. On Saturday afternoon at about 2:30 PM, the family had the respirator removed. Dean died peacefully about half an hour later. For many years, Dean was recognizable as the voice of traffic on WCCO radio, heard throughout the Midwest on the clear channel frequency of 830 KHz. In the late 1990's, Dean moved to Metro Networks as a news writer and announcer. He also became quite skilled at using Jaws to perform computing tasks both on, and off, the job. I'm not sure when Dean received his first amateur radio license, but I believe he's been a ham for over 30 years. He also spent a great deal of time producing programming for the W0KIE satellite radio network. Dean had an avid interest in old-time and new-time radio drama. In 2006, he had a chance to be in the Colonial Radio Theater On the Air production, Proudly River. dean and i go way back i helped him get on ham radio installed antennas email me at n0bve@yahoo.com

He told me a school teacher once told him, "you can't be as good as your class mates, you must be better". He lived up to those goles. He helped me through a rocky time in my life. He gave me some good advice. Knowing him helped me become who I am today. He was hot headed, seemed to know a little about everything. If you really knew him like I did, you know that was the real Dean. He was and is my great friend. I shall miss my friend for the remainder of my life.

“ I've known Dean since High School. He was one of the people who helped me get started in CB Radio, way back before it was popular. Dean and another friend Randy (Whirlwind) helped to put my antenna on my parents house, which was 3 stories high! His handle was Cyclone, mine was Athena. The CB group would gather at Minnehaha Falls, sit around and sing songs, Dean would play guitar. I have a lot of fond memories of those days. Words are hard to come by at a time like this. My prayers are with his family. Sincerely,

“ I knew Dean when he lived in St. Cloud. Sometimes I would pick him up from his job at WJON and take him to a gig somewhere. A man of music, adventure and fun. How he talked me into letting him drive home one night still amazes me. But that was almost 30 years ago – so maybe that explains some of it. Thinking of those times makes me smile. Realizing he’s gone makes me sad. My heartfelt sympathy to his family and friends.

“ To all of Dean's family...We were roommates at St. Cloud and I cannot recall a better time in my life. Getting to know and live with Dean enriched my whole world, and that of others as well, beyond measure or words. We kept in loose contact after that, and our circles intertwined in some very interesting ways. The world seems a little duller now, with his passing. He was the best, and that's for sure.

“ I met Deano in 1981 on Citizen Band radio when I was speaking to my former wife on channel 7 coming home from roller skating. (How's that for a memory) He said the reason he broke in was because it was the only intelligent conversation he could find..ha. We became instant friends and started hanging out. He was working for WCCO radio as the traffic king. Dean and I spent many hours sharing and riding around in the car talking all over the world on ham radio. he will be missed dearly!

“ *Trust. Absolute, unmitigated, unflinching trust. Dean and I were college buddies. We "found each other" at KVSC-FM in St. Cloud, MN in the early 70s. Both rebellious, naive, hungry to learn, and mischievous, we were sympatico. But from the beginning, trust ruled everything we did together. He trusted me absolutely and that special and enormous responsibility helped me grow to be the person I am today. For that short time, I became his second set of eyes...and what a huge responsibility that was. I trusted him, to be honest and direct - to tell it like it was. He did. Always. From late nights in one of our apartments, sharing stories of the day and listening to and discovering great music, to summer day trips to the quarries for some beer and swimming, to working together in the studio, he was always there for me. The mic is live, Buddy. It's your show.*

“ You were 13½ years older than me, but we shared a special connection; me being the youngest and you being the oldest. Even though I do not understand God’s master plan and will always wonder “Why?”, I know that He knows what is best and we must trust in Him. Maybe Lisa was right; God was having a computer problem and needed your help. You were such a loving man. The love you and Carolyn shared was a love so great others can only hope to experience a love like that. Carolyn is one of the most loving, compassionate and giving people I have ever met. She is always doing for others and does not have a selfish bone in her body. She is and always will be a member of this family. I only hope that she doesn’t get sick of us; you know how overwhelming and loud we can be. We love her so much, and I am proud to have her as my sister-in-law. Ben has grown into such a fine young man. He is strong and smart and ambitious just like his Dad. We are so proud of him. Elizabeth is amazing. She is such a smart young woman; getting straight A’s in high school. We all know how very proud you were of her, and we are too. She has the intelligence and drive to be anything she wants, and she will go far in life. And then there is Lisa. Lisa has acquired your love of music and your musical talent. I understand she is becoming quite the musician and has a beautiful voice, just like her Dad. I only hope that she is not as stingy with singing for her family as you were! We are very proud of her too. I got your message tonight via the cup incident. I don’t know what you were trying to tell me, but I know it was you. If you are wondering about your family, rest assured that we are going to take good care of them for you. We are always going to be there for them and will help them in any and all ways necessary. I love you big brother, and I will miss you dearly. One last thing; give Dad a kiss and a hug for me. Until we meet again . . .

“ Dean and I met in 1972 when I arrived in St. Cloud to pursue a degree in Print Journalism. Once on campus I discovered there was a college Radio Station, and when I went there to check it out dean was one of the first people to welcome me. I was born legally blind, and like Dean, I had a childhood dream to be a Radio Broadcaster. My hopes of realizing this dream had been dealt a serious setback when I was denied acceptance to Brown Institute, the then most respected school for those aspiring to a career in Radio. Meeting Dean restored my belief in my potential to be a Radio broadcaster. Here was a Blind Person who wasn't just learning to be a Broadcast Professional, but rather someone who was already there and had not yet been discovered by a Commercial Radio Station that would be enriched by having him on their team. Dean became a teacher, a colleague and a very good friend. We celebrated each others successes in Radio, and in life, and supported one and other during times of setback. Whether it was his commitment to his family, enthusiasm for being on the cutting edge of technology, his passion for NASCAR, his love of performing (or just listening to) music, his insatiable appetite for engaging conversation or his brilliance with all things Radio Dean was a very special person, and those of us who knew and were fortunate enough to have been his friends were blessed with that relationship. While we haven't talked as much over the past several years as we used to, I feel an emptiness knowing I can't just pick up the phone and call for one of those always engaging chats that often left me feeling better at the end than when the talk began. Peace my friend, and ease into your next life knowing that you left a lot of us better off for having known you in this one. Till we meet again.

“Dean was my inspiration and shaped my life. We met when we were teenagers and were friends throughout our lives. Dean could do anything he set his mind to. I’ve never known a stronger, more intelligent, or energetic person. He took pride in being an expert in his chosen interests and people sought his advice. Everyone liked Dean. He had more stories and jokes and could tell them better than anyone. He was fearless and wouldn’t back down from what he believed was right. He was a great musician with perfect pitch. And later in our lives we finally were able to be in a band together like we always talked about. What fun we had. Though we drifted apart these last few years, Dean will always be in my thoughts. Knowing him has helped guide me through my daily life.

“ Dean Spratt (N0HSR) a silent key Last Saturday night, Dean went to bed early, complaining of a headache. On Sunday morning, he was rushed to the hospital and diagnosed with a massive stroke in blocking 95% of the main artery to the brain stem. Over the last week, we believed Dean was going to recover. He was hearing and understanding people, recognizing his friends and family, and speaking, although his speech was labored. I'd planned to visit Dean in the hospital some time this week. On Friday night, Dean took a turn for the worse and was placed on a respirator. He lost consciousness and the family met to decide how aggressive the treatment should be. On Saturday afternoon at about 2:30 PM, the family had the respirator removed. Dean died peacefully about half an hour later. For many years, Dean was recognizable as the voice of traffic on WCCO radio, heard throughout the Midwest on the clear channel frequency of 830 KHz. In the late 1990's, Dean moved to Metro Networks as a news writer and announcer. He also became quite skilled at using Jaws to perform computing tasks both on, and off, the job. I'm not sure when Dean received his first amateur radio license, but I believe he's been a ham for over 30 years. He also spent a great deal of time producing programming for the W0KIE satellite radio network. Dean had an avid interest in old-time and new-time radio drama. In 2006, he had a chance to be in the Colonial Radio Theater On the Air production, Proudler River. dean and i go way back i helped him get on ham radio installed antennas email me at n0bve@yahoo.com

“Dean and I met about 15 years ago, as listeners and participants on a national satellite radio talk show. When I found out that we were located about 5 miles from each other, I drove to his house and tuned up his satellite dish. We became fast friends, culminating in a weekly national talk show where we shared information about satellite technology and just about anything that was worth discussing. Dean had the ability to make intelligent conversation on just about any subject, and was a joy to work with. It would be difficult to estimate how many thousands of people around the world looked forward to his satellite and Internet-delivered radio programming, other than to say that he touched the lives of many people. His quick wit and caring attitude will be greatly missed. Our prayers are with Carolyn and the family.

“ Carolyn and Family, My condolences on Dean's passing. I first met Dean while working at WCCO-Radio in the early 1990s, and we enjoyed a great friendship ever since, fueled (no pun intended) by our mutual love of NASCAR. One of my favorite memories of Dean was when he and I went to interview Dale Earnhardt, who was in town for a GM event. Dale's respect for Dean's racing knowledge was clearly evident, though he did find it hard to believe when Dean said he was a traffic reporter. The photo of the three of us is still one of my favorites. Deano will certainly be missed by many.

“ I've only known Dean since he joined the WOKIE Radio Network, in the mid '90s. And i didn't really get to know him well untill the last few years. In that time, i've come to know him as as one of the topmost notch people around. I missed out on a lot of stuff; but the time in which i've had the opportunity to interact with him, i have enjoyed immensely--right down to little things, like experimenting with new and interesting ways to hand off from our show to his, every thursday--which he always handled beautifully, no matter what disastrous curves i occasionally threw at him, with little or no warning. I'll miss that, and everything else. You totally rocked, Dean! We miss you. You said it best in some of your last week's words: "This sucks!"
