“ I am so sorry for your loss, Karol and family. May God comfort your family with the love of family and friends during this difficult time. Denny left his mark on this earth and was a wonderful boss- so nice, easy to talk with, a man of integrity, fairness and good character... and quite the handsome gent too! Denny hired me at Honeywell. We both lived in Shoreview and carpooled a few times. As a rookie sales rep in the mid-80's, I recall him telling me "always ask for the order. What's the worst the customer can do? They can't shoot you!" We all know that statement doesn't hold true today, but in my 35 years in sales, I've never forgotten his words of wisdom- "ask for the order!" With thoughts of a great guy and prayers for you! “ Our sincerest condolences to Karol and the family. I look back fondly to the many years spent working with Dennis at Honeywell. In fact when I was at Schjeldal Company in Northfield Dennis was our systems representative and I believe influential in my joining Honeywell. Over the years I worked for him in solving the problems of computer users but also the memorable times having fun like the trip to Apapulco which many of us shared but possibly wanted to forget the next day. Rest in peace and some time maybe we can share fishing stories together. Truman Roach
