“ As a kid I remember Don had many of the cool cars. He loved his Mopars! Once a car guy always a car guy. And his enthusiasm about electronics and music started early too. Guess that explains why mom's attic was full of car magazines, 45s, and old radio parts. We'll miss you Don!

“ I had the great privilege to work alongside Don at Medtronic for 15 years. He was one of the most passionate employees for the Medtronic mission of restoring health to patients. Don was one of the smartest and knowledgeable technicians with quality as a number one priority. I enjoyed Don's humor and friendliness and he helped me personally on numerous occasions. And we shared that we were both veterans of the armed forces. Semper Fi, Don. Fair winds and following seas my friend.

“ I met Don as a new hire technician for Medtronic MedRel in Puerto Rico. We instantly became buddies. We shared the many particular interests like technology and music for well over 30 years. I was very blessed to have known him for so long.

“ We've shared many memories with Don and his family as we gathered for family get togethers with Grandma Laura, Bob and Lorraine. He was a gentle giant to his nieces and nephews . They all looked forward to the holidays. Conversations with all "the boys" included cars, fishing, hunting and the cabin. Remembering growing up and all the shenanigans that required the "wait till your father gets home"! threat. He was the brother that you could call for memory callbacks. He loved his family and we will miss him. With all our love, Jim and Bonnie
