“ My memories of Doris, I feel so privileged to have had the opportunity to know and love her. She is one of the most loving and giving people I have met. We spent many hours talking and laughing. Even though she had so many health issues and physical pain she would always ask first "How is your family doing?" And she knew them all by name. She made a huge impact in my life being there to support me through hard times and I tried to do the same for here. I miss you, you are definitely one of God's angels.
