“ Ed Drolson was one of my very favorite persons from Lake nebagamon . He was always full of compliments and always had a very soft spoken way of saying those compliments. He said things with a very soft-spoken heartfelt feelings. He treated everyone that he met that same way. In my church, he sat in the same place every Sunday. He was a pillar of our church and held it together in his own personal way.

Ed loved Lake Nebagamon. He loved dining at of the Lake Nebagamon harvest dinners. He would drive 50 miles to support the organization that put on the dinner.

I will miss talking to him every summer and he will always have a very special place in my heart forever.
