“ I'm sorry I missed your obituary dear friend of over 50 years. We had a long history together and through difficult times you were such a good supporting friend to me as I hope I was to you. When my husband and I dropped in unexpected a few years ago I know you didn't recognize me until I said my previous name was Zappa. Your face lit up and you gave me the biggest hug. You also played a beautiful piece on the piano for us. When we left you had Stan give us a jar of delicious fresh canned peaches. That is what we had done fo 50 plus years--shared with one another. Dear friend, you certainly earned your heavenly rest. I'm thankful for your loving presence in my life. My sympathy to your family. Sandy Zappa Langner
