“ I grew up next door to the Bradshaw family in St. Paul, MN and have had the privilege of working for both Aztech Machinery and Process Label Systems over the last 16 years. I remember as a child Franklin handing me a small piece of scotch tape with my name printed on it in black letters. I thought it was the coolest thing ever. I had no idea until my adult life what it was all about. He was always smiling and happy to see everyone who worked PLS. I couldn't ask for a better human being to be working for, thank you Franklin and Bradshaw family, my prayers are with you all.
