“ Gary and I grew up together in Palo. He and I must have played a thousand games of one-on-one "baseball" in my backyard. He was always the Dodgers and I was always the Yankees. He won more than I. I have thought of those days growing up in Palo often over the years and Gary is always a part of those very happy memories.

“ Gary Dean was one our ushers when Greg Chapman & I married on 9/9/1972. I have thought of him throughout the years, wondering where he went. The last time we saw him would have been in the Autumn 1975 just a few months before we had our first child. We stopped in Waterloo, to see him. We all 3 graduated together from Cedar Rapids Jefferson HS in 1971. Gary had the prettiest 1964 red Chevy!! it was awesome. RIP = Gary Dean!
