BA

“ I have never met anyone that went through as much as Gary did for the ten years he battled ALS. I have complete admiration and respect for his strength and will to battle at a time when most would have given up. I'll always remember that through it all he seemed to still provide everyone a smile, and ask his visitors how they are doing. That speaks volumes of his character and kindness. I will miss him and regret that I can't have a future with him in it.
