“ Georgiana loved her family and she enjoyed family history. I contacted her many years ago when doing my “Stober” side of the family history. She was so gracious helping me fill in the gaps of her family groups I didn’t have recent contact with. I too gave her my family information. We made instant friends not only from our genealogy interest, but also her infectious humor and loving personality. For many years we’ve had telephone visits and a few live visits! That is what I missed the most, live visits. We would always say, next year for sure.
Family all, thank you for sharing her with me and mine. Especially Liz who thoughtfully contacted me. I will never forget my Stober cousin as I still pursue family story’s, dates and photos. I hope one day you will enjoy my Stober book, she will be in there, for sure!
