“ I'm extremely saddened to hear of Ginger's passing. I just found out this morning after seeing pictures of our 40th class reunion on Facebook. Her picture was displayed with others from our class who had passed on. It came as a total shock to me.

Besides being a classmate, Ginger was one of my best friends growing up. She lived down the street and we saw each other daily. Our friendship lasted from elementary school, through graduation from high school and beyond. The last time I saw her was at a Halloween party hosted by Renee and Mike Faber. What a great reunion! Unfortunately our adult lives had led us down different paths, and we'd lost track of each other. How I now wish things had been different!

My deepest sympathy to Ginger's family.
