“ My heart is so heavy , seeing this of Greg, he was such a a good dear friend to me when I worked nights with him at Castle Metals, then I brought him on board to Crucible Steel. I picked him up many times and brought him to work and back so he wouldn't have to ride his bike in the frigid temps. I cut his hair many times at work and we had a lot of fun and good times. I was just looking for his # on my phone and no longer had it so tried many ways to contact him and then his obit popped up and I couldn't believe it! I have pictures on my phone still that I was going to send him. Maybe family would like or his son. Also I knew his aunt well that helped him at times. She was the sweetest lady. I just can't believe this, I'm so heart broken over this. I will light a candle right now in his memory! A dear friend and co worker, Sylvia Godich
