

Gregory Francis Paczkowski

January 25, 1983 - November 13, 2024

Gregory Francis Paczkowski, M.D., M.B.A., age 41, passed away on Tuesday, November 12, 2024, of natural causes. Gregory received his medical degree from Wayne State University in 2016. He completed his residency in Family Medicine in 2020 at St. Joseph Mercy Health System in Livonia, Michigan. He received his master's in business administration from the Ross School of Business, at the University of Michigan in May 2020. Gregory was the first student at the University of Michigan to concurrently complete a medical residency while working towards his master's degree.

Gregory began his Family Medicine practice in August of 2020 at Allina Health, Nicollet Mall Clinic. During the pandemic, Gregory practiced out of Uptown Clinic for several months as the downtown clinic location was very slow. He assumed the lead provider role at Nicollet Mall Clinic in September of 2021 and expanded that role to include the Greenway Clinic in February of 2024. Gregory also had a special interest and passion for serving underserved communities.

Gregory was an excellent physician, highly regarded by his patients and his clinic colleagues. He was an even better son, brother, and true friend. His spirit and presence live in the hearts of family, friends, and all who knew him. Gregory left us far too soon, yet in his time with us, we were truly and forever blessed by his love for us and his love of life.

Gregory lived life to the fullest. He was an avid cyclist-it was not unusual for him to ride 100 miles in a single day. He was a passionate supporter of the Fine Arts in Minneapolis at the Walker Art Center, MSP Film Society, and Guthrie Theater. Gregory enjoyed all the finer things in life: fine dining, fine wine, and travel. This past year Gregory visited Dublin, Kraków, Montreal, and Boston. Gregory appreciated wide and diverse genres and styles of music.

Gregory is survived by his parents Ron Paczkowski and Judith Talbott, his sisters Rachel Paczkowski and Beth Wood, brother-in-law Aaron Wood, his nieces Grace and Willa, and nephew Alex.

A memorial service will be held on Monday, November 18th, 2024, at Washburn McReavy, Hillside Chapel. Visitation will begin at 1 pm, a service will be held at 2 pm.

In memory of Gregory, memorial gifts can be made to the Walker Art Center, MSP Film Society, Guthrie Theater, or the Red Door Clinic.

Dear Gregory, we miss you dearly. Peace and all good. We will be together again.

Claudia Kiener (Freiburg, Germany) - November 25, 2025 at 03:53 PM

“ *Today marks a year since Gregory's passing. Reflecting on his profound impact on my life over this past year led me to write and complete a book. On one hand, to preserve memories about him while they were still fresh and vivid, and, on the other, to express how he shaped me and my entire system of beliefs.*

I also feel a desire to share the message with his loved ones, if you would be open to it. Since I personally feel obliged to share the story that is full of mysteries and unknowns, but one that is, in its conclusion, more inspiring than I could have ever imagined.

I feel tremendously grateful that you, Gregory, appeared in my life. You have built a core of it

Krystyna Krupko - November 12, 2025 at 05:38 AM

CK

Dear Krystyna, thanks a lot for your words. I would be interested about your Book. I am a friend of Gregory. I miss him so much too. I live in Southern Germany.

With best wishes

“*I'm so sorry to hear about Gregory's passing. My deepest sympathies go out to his loved ones. Dr. P was my primary physician for almost two years, and I truly appreciated his kindness, attentiveness, and good listening skills. I had been suffering from fatigue for over a decade, and Dr. P was the one who finally diagnosed and corrected the issue. Thanks to him, I regained the energy I had been missing for so long. I will always be grateful for his care and will deeply miss having him as my primary medical provider. Sending peace and love to his family and friends.*”

“ Dr. Paczkowski was a wonderful doctor. Frankly the best doctor I have ever had. He was very kind and highly competent. He made doctor appointments enjoyable, and effective. Dr. Paczkowski was what I imagine great doctors used to be like, when they had time to listen and really care about patients. My sincere condolences to his family and friends and his other patients. Best wishes Doc.

Nick M. - January 14, 2025 at 06:39 PM

KK

“ 16th of December - 33 days after his passing - he came to me in a dream and said "This is goodbye, Krystyna". That is what made me, being so far away in Germany, google his name and find the obituary. I saw him 5 days in total when I was in Minneapolis in the Fall 2022 + 10 min of video chat in May 2024. I have never been the same person as I had been before I met him. There was barely a day when I didn't think about him since I knew him. He showed me, how important is time. In connection with him, it always felt: "If I don't tell it now it will be too late" - and it felt like I'm always just a couple of minutes too late. Just a couple of minutes, but crucial ones... for him each minute was crucial to be able to live the life to fullest. I was always so resentful of him that we didn't meet once again - reading all the memories of everyone who shared here I know why - it was his choice to always be there for everyone. He inspired me from the first day I saw him. He meant so much to me, he was everything to me and I even don't know how he passed. In my dream, he said he knew... Gregory, I wish I could have been closer when it wasn't too late. I'll do my best to be a better Self. I love you forever

Krystyna Krupko - January 08, 2025 at 06:00 PM

DF

“ Dr. Paczkowski was my doctor. Doctors' visits can be intimidating, especially as a young adult in a new city making my own appointments for the first time while struggling with major depression. Even during our first appointment, he was so easy to talk to. He was kind, genuine, and truly cared about his patients. I have tears in my eyes as I write this, as I only learned of his passing while trying to schedule my annual physical. He was a pillar of light to the Twin Cities community, and the pain of his loss runs deep here. I don't know how many lives he touched during his time on Earth, but I do know that his legacy remains in each one of us. Thank you, Dr. Paczkowski, from the bottom of my heart.

MR

“ When my last GP left Allina Nicollet Mall clinic to work closer to home in Plymouth, I was asked to throw a dart at a dartboard for a replacement, and I hit Dr. P. I wasn't excited to see him. He was replacing a doctor I respected, he had an intimidating last name, and I don't like visiting doctors in any event. Within five minutes of meeting him, I was completely won over. I loved his professionalism, his efficiency, his vibe, and his small talk. Every time one of my appointments with him concluded I thought, "I really like this guy. Maybe I should see if he could get together for a drink." Of course I never invited him, and now I regret it. When I opened the Allina letter today, I couldn't believe my eyes. It struck a mighty blow to my heart. I am sad for myself, for all his patients, for all his friends and family, and for the entire world to lose a man like this. --
Matt Ralph

Matt Ralph - December 11, 2024 at 02:15 PM

JJ

“ I just got the letter from Allina with the news of your passing, Greg. Last year at this time I had my physical on a Friday and you encouraged me to attend a Walker social event that evening. Later, my partner and I enjoyed a glass of wine with you. You were such a wonder PCP... supporting me when my dad passed... discussing the nuances of the sideways healthcare industry... interpreting the world with such a wonderfully motivating vigor. "Everything that's cool in the world, is something that someone has done or built. Nothing is impossible." I still think of your historical interpretation - "it's a miracle any of us are here. We all have ancestors that were the mightiest of the mighty as well as the poorest of the poor. We live in this moment we're able to reflect, study, and course-correct."

My sincere condolences to his friends and family. I knew Dr P. as a real one and this world is a better place because of him.

Jack Johnson - December 09, 2024 at 06:39 PM

“ Our heart is broken to learn of Dr. P passing. We too echo the sentiments of what has been expressed. What a delightful treat to have met such a warm, caring physician. Our condolences to his entire family.
Steve and Elizabeth Lasley.

Elizabeth-Ann Lasley - December 07, 2024 at 07:22 PM

NP

“ Going to visit Dr. P at the clinic never seemed like a "doctor visit." I always enjoyed catching up during our visits to talk about travel and food - activities to check around the MSP area, and what concerts we each had been to. As many have said, it was easy to talk to Dr. P, and he was such a good listener. Reading his obituary gives me more of a glimpse into his life and how talented and skilled he was, especially for support of the LGBTQ+ community, healthcare, and wellbeing. He will be missed, and the community is stronger because of him.

NP - December 06, 2024 at 11:06 AM

“ I was his patient in October 2024, due to my Covid test being positive. He was very professional, kind and patiently listening to me , I am saddened to hear this news, my sincere prayers for his Soul.

SOPHIA Abraham - December 04, 2024 at 03:40 PM

JW

“ I have had numerous doctors fill the role as my GP at Allina Health Care over 30+ years. I never really embraced any on them as "My Doctor" until Dr. P came along. He didn't just listen, he ACTUALLY listened and participated as someone who played an important role in my future. I always felt fortunate when I left the building. and don't even know what to do with him gone. He shares an alma mater with my parents and sibling, and I enjoyed talking with him about all things Detroit. I cannot fathom that I am talking about him in the past tense when he was such a force of life. I will try to be a better person in his honor.

Jamesr Wilson - December 01, 2024 at 09:20 PM

“ Greg was a very good friend in medical school. Lots of time spent together studying, playing volleyball, coffee, drinks, climbing, cooking, or whatever the new adventure was. He was a force to reckon with. He had a way of bringing people together from all walks of life. To know Greg was to know joy for life. He was always smiling, always curious, always loving, always learning. He made me a better version of myself and did this with many, as if it were a natural thing to do. The world will feel the loss of his schöne Ausstrahlung. May his memory always be a blessing. Love, Lauren

Lauren Corona - December 01, 2024 at 09:25 AM

“ During my first appointment with Dr. P, I knew, "this is my doctor". You could see he cared about his patients and saw them as people. As two guys of a similar age, we chatted about cycling and even a little about dating. Seemed like a friend and doctor. A new experience for me. During my next my visit, he was late and apologized. I said "I didn't mind" and he said, "well, you should." Super cool. Absolutely floored to hear of his passing. I had a physical scheduled for December 27. He seemed so healthy and full of life. My heartfelt condolences to his friends and family. Rest in Peace, Dr. P. You were a good one.

“ I hardly have words. I only heard
Three days ago now. Dr. Paczkowski was my primary physician since 2020. He was so very lovely, so kind. Wonderful smile. I did give him a hug the last time I saw him a month ago. I am heartbroken! I am thinking about him so much!
Warm condolences to his family, patients, friends and all who loved him! God speed, good Dr. Gregory!

Cosette Sondai - November 22, 2024 at 05:40 AM

BE

“ I was a patient of Dr. Paczkowski for about four years. We both laughed when I saw him a couple years ago, because it was the first time we'd seen each other without wearing our protective masks! He was a wise, wonderful, caring, and down-to-earth doctor. I'm so grateful that he was my primary care physician. I saw him for my annual physical exam just two weeks ago, and I found out only this morning that he had passed away. I'm heartbroken, and I know I am not alone. My deepest sympathies to his family, friends, and other fellow patients. I'm so sorry for your loss.

Bob Edholm, Columbia Heights

Bob Edholm - November 21, 2024 at 11:37 AM

DA

“ I was a patient of Dr. Paczkowski's and am really struggling to comprehend his passing. He was such a healthy, health-conscious man. I thought I would go before him. Moreover, he was such a kind, caring, thorough doctor. I had a laundry list of concerns every time I met with him and he was always patient and thorough with going through each and every one of my concerns. He is honestly one of only two primary care doctors I've ever had (the other being one named Dr. Cordelia Moscrip) whose judgments and advice I would've trusted implicitly. My sincerest condolences go out to Dr. Paczkowski's family and other loved ones. His passing is a loss to the medical community and world at large, and we patients are definitely feeling the impact.

“ *Dr Paczkowski has been my doctor for the last 3 or 4 years. In all my years of going to the doctor I've had not one that cared as much as he did about his patients. When I almost died a year or so ago he was very concerned for me. I used to joke with him in fact when I had my last appointment a few weeks back if he ever left this Clinic to go to another one I don't know what I'd do. We kind of laughed and he said well he said I'll tell you about a personally. And I think he meant it that's the way he was. My prayers and thoughts go out to the whole family and to his parents I wanted to say you must be awfully proud of him! I know I will certainly never ever forget him.Linda Folta*

Well said Matthew!

Nathan Bautista - November 18, 2024 at 08:11 PM

KK

“ I was likely one of Dr. P’s last patients, snagging a unplanned last-minute appointment Tuesday afternoon. During our visit he seemed his typical self – kind, compassionate, caring, and always thorough. He was bright and witty and interesting and interested.

As he stood up to leave the room he told me that if he didn’t see me before Christmas, to have a great holiday. I smiled and thanked him and he smiled back. There was a long pause where neither of us said a word...a VERY long pause. And for some unknown reason I had an almost uncontrollable, best described as maternal, urge to hug him. My subconscious quickly weighed in “Don’t make it awkward lady. People don’t HUG their doctors. You will totally creep him out.” The moment eventually passed and he said goodbye as he walked out of the room.

I was notified of his passing a couple days later. Since then I can’t stop wishing I would have given him that hug...

My deepest condolences to his family. I had a feeling he was one of the good ones, today's service affirmed just that. May you find peace in knowing he was loved. He was appreciated. He changed lives for the better and I am better for having "known" him.

“ *I had the pleasure of being one of Dr. Paczkowski's patients for the last two years. He always took the time to talk to me as a friend and I could tell how deeply he cared for his patients. It was a shock to find out that he had passed at such a young age, but I know that he made a difference in all the lives that he touched.*

Ben Hancock - November 18, 2024 at 04:26 PM

RS

“ How proud I am to have been a friend of Greg. In our personal and professional relationship, I was continually overwhelmed by his natural warmth, kindness, openness, and empathy. Greg's gift to his patients were not only his medical skills, but his deep-rooted caring for each patient as a unique individual who had medical and life problems seeking solutions.

I often wondered how this physician went through each day navigating twenty-five patients- giving one hundred percent of his medical and behavioural attention to each individual, and ended the day smiling and energetic. In a week, he cared for 100+ patients; and poor test results, and diagnosing diseases- cancer, metabolic disorders, autoimmune disease, and a host of other maladies- death and dying, and yet he was able to offer his very-human spirit to his next patient.

I was so privileged to know you as a young boy with all of the angst of ones' teen years, and witnessed your search to discover who you were and what your life's work would be- who am I, how do I make a difference- and discover medicine and caring for people as your gospel; the apple did not fall far from the tree my friend.

Goodnight Dr. Greg, sleep well. I wish you could have stayed with us longer,

Bob Shaver

“Gregory. Greg. Dr.P. Dr. “Pass-cow-ski”, Gregory Francis Paczkowski MD MBA
Dear friend, doctor, beautiful human
It was truly an honor to get to know you and spend time with you on your last day here. What a gift. <3
Your smile would always light up the room. You always gave me something to look forward to and that was you. I’ve never met a more genuine, dynamic, fluid, kind, smart, and beautiful human being.
My heart and soul will forever grieve this loss. My sincerest condolences to your family, friends, and patients.

Love you always

“ Greg, you were more than just a cousin; you were a friend and a kindred spirit. I'll forever cherish the summers we spent together at Lake Michigan—the simple joy of tubing and canoeing the lake, and the treks across the dunes.

Evenings by the bonfire were the best—sharing stories, laughing, and just enjoying the warmth of family at the bon fires. You had a way of making every moment feel special, every laugh more genuine, and every memory more lasting.

Though you're no longer here with us, your spirit lives on in those cherished memories. Thank you for all the joy and adventure you brought to us. Rest easy, Greg.

“ Dr Greg P was simply an amazing individual and a great Doctor. I recently moved to Minneapolis and met him for a consultation. He was unbelievably warm and friendly and provided amazing medical guidance. I was told he was at full capacity and did not accept primary care patients anymore. I went for a follow-up consultation and we got chatting about my health and various other topics including Climate risks. At the end I told him I knew he was full but wondered if he could accommodate another patient. He was kind enough to accept me stating he enjoyed our conversations. I have extremely fond memories of his medical advice and will miss him very much. An amazing human being and a great Doctor. He is a great loss to Minneapolis and Allina.

Bala Subramaniam - November 17, 2024 at 02:42 PM

“ Dr P was my doctor since he started at Allina. Like many others who have posted on here, I found him to be a wonderful doctor. He always took the time to discuss how I was doing. His passion for healthy living really resonated with me and about a year ago when he discussed how I needed to get more activity and focus on weight loss, I took his advice to heart. I have lost weight and feel so much better - thanks to him. He will be missed.

“ Dr P. Has been my primary dr almost right after he arrived. Our first visit was as much about him as me we quickly became friends and had very heartfelt conversations. He help guide me through a cancer diagnosis and recovery as well as minor issues. Always quick to respond to a text personal or health related, he was like the traditional country Dr. With great wisdom. I admired how much wisdom he had.
I'll miss Greg a ton . Timm

“ I was saddened and shocked to hear about Dr Greg passing. I was his patient for over two years and he was one of the most caring and easy to talk to doctors I ever had. He was not only interested in my health but also my personal lives. At each of my visits we chatted about my travels. He will be missed as a doctor, he was truly special. My heart goes out to his family and those close to him.

“ I have been a patient of Greg’s for two years after my physician of over 20 years retired. To be honest, I was anxious to build a new relationship. However, Greg was incredibly thoughtful and engaging and I felt I had not only found a new doctor, but also a new friend. I’m grateful to have known him and wish for comfort to his family and friends.

Gordon Sween - November 17, 2024 at 10:24 AM

“ I reached out to Dr P as a new patient in late 2021/early 2022. He was compassionate, caring, willing to listen without judging or rushing to conclusions. My thoughts are with your family and friends, Dr P. I appreciate the short time we had, and the care you’ve given to me and so many others. I’m certain you are dearly missed. Thank you for everything, I hope to make you proud.

“ I have never had a doctor like Dr. P. I was absolutely got it when I heard the news. He took the time to get to know me as a person and as a patient. I'm still hurting from the news, but I also want to give my condolences to his family And friends that knew him even better. Lost a great person for too soon.

“ Gregory was my doctor at Allina. I am deeply saddened by his passing. I loved having him as my doctor. He kept me calm and understood my health and past medical history. He was by far the BEST doctor I have ever had. I wish he knew how much of an impact he had on my life and health. Love and hugs to all who knew Gregory.

Nathan Bautista - November 16, 2024 at 10:30 PM

“ I'm going to miss Greg. He was such a good Dr I loved having conversations with him He was always smiling. He took great care of me. I felt cared for by Dr. G. It makes me sad he's gone My condolences to your family

Thomas Storrer - November 16, 2024 at 10:14 PM

“ I moved in United States only two years ago and was very lucky to get connected with Gregory through our passion for cycling. He helped me a lot to settle in at my new place. I will always remember our dinners together, bike rides, and hangouts. I truly regret that I had so little time to get to know Gregory better, but I am grateful for every minute spent together. You will remain in my memory as a friend who was open to everything new, loved collecting vinyl and art, with great taste for all things beautiful. My family moved to Atlanta, and I cannot make it to the funeral. In Russia, we say: "May the earth be light upon him, eternal memory!"

Love you buddy ❤️👍

“ Greg was my physician at Allina in Mpls. He was smart, kind and a very understanding person, He always calmed me down if I was tense about a situation. I am extremely saddened by his passing at such a young age. He would have developed into a great Doctor, my condolences to his family, David King

David King - November 16, 2024 at 07:33 PM

“ Greg was an incredible friend. I will miss him dearly. My sincere condolences to his family and loved ones. I lived close to Greg in Detroit during medical school and we became quick friends. Greg had a spontaneity and positive outlook that made time spent with him special. He made our medical school years enjoyable, which says everything. From hours of studying and banter at Great Lakes Coffee to backyard ping pong battles to spontaneous bike rides or gym climbing sessions to art exhibitions to drinks at Bronx Bar - he always made time to be with friends. He was great at weaving groups together and building new friendships. In recent years, I looked forward to hearing from Greg as his updates brought news of travel adventures, biking excursions and more on his many accomplishments. My memories of our times together will last forever.

Rest in peace, Greg. I miss you my friend.

“ Lived in Detroit with Greg and went to medical school together. He was always happy to lend me his parking pass when needed! Have a lot of great memories riding bikes through the city and one day riding all the way to Ann Arbor and back. We played flag football and a did a triathlon on Belle Isle together. He had so many interesting perspectives and has always been an example in my mind of someone who takes a big bite out of life. I'll always remember that vigor and I'll try to carry that forward in my own life. Thank you Greg for being a good friend and role model.
