“ Dear Mary, John, and families,
We are so thankful to have had a little visit with you, John shortly after your Mother's passing. We just feel we want to be sure you have our deepest sympathy also, Mary.
I want to write this to you all, even though time has passed.
Gwen would so faithfully send us lovely messages back when she was able which many times included happenings with you and John, and her grandkids. She used to share pictures with my mother, Verona Myron. I also was friends with your cousin, Becky Hinkley.
My memories go way back to your Grandmother Emma, and all she shared with us. We're thankful for wonderful fellowship in the Lord throughout the years including Harvey, our last being with Gwen at the Ted Beasley home.
She never complained in the recent years we visited her, she was just grateful for a visit. We miss her deeply, and we will be forever thankful for so many memories to cherish.

“ My mother, Yvonne, considered Gwen to be her first childhood friend. From about 5 years of age, many fond memories were woven into the subsequent years. Trips to Emo convention, vacation at Forsland's cabin on Lake Kabetogama and a stringer of fish for their fishing efforts. Years when my parents and our family enjoyed Harvey and Gwen's company. The ladies also enjoyed several years of birthday luncheons with friends. We are grateful for pleasant memories Gwen has left us as she enters her eternal rest.

“ I worked with Gwen for many years in the 1990s at PDI. She was a hard worker and I learned a lot from her. She kept a cohesive group around her and we managed the details of marketing communications as the company moved into global operations. Lots of laughs and many significant accomplishments.

“ Elaine Knutson, I don't know you, but I enjoyed your 'reminiscing' as Gwen's close friend ... sounds like you knew her almost better than myself, her cousin.
My early childhood good memories are being together every summer at family get-togethers at Grandma Swenson's farm, and then later in life when Barb and I would drop in to see Harvey and Gwen and then most recently seeing Gwen at Yorkshire Senior Living. I now must add Gwen's name to my growing list of cousin's that I miss. Ray Swenson

Gwen was a wonderful force of nature - caring, extraordinarily competent at everything she did, opinionated, knowledgeable - I could go on. I had the pleasure of working with her for many, many years at PDI. She contributed so much to me, to PDI and all those she worked with. Thank you, family members for sharing her with us.

“*To Mary and John and their families, I want to send my thoughts and heartfelt condolences on the loss of your dear mother, Gwen. There are so many wonderful ways to remember her // She was talented in her 'way with words' as a writer and speaker. We met at Duluth Denfeld HS. in 1948, found a shared friendship in our school paper work and in music; she was on a debate team, and an actress and a violinist. She had a thoughtful, caring way, a sympathetic ear, was a mindful, knowledgeable reader. We kept our friendship through being roommates at new jobs in Mpls, on to our own families and 'life' for over 70 years. You were good for me: I will miss you Gwen. Always, your loving friend, Elaine (Johnson) Knutson*
