“ I was fishing with Jack on Lake Michigan in the 1980s when he taught me the gospel song "Bring Them In". I have hosted 16 annual gospel singings since my 50th Birthday in 2004 and have opened each one by singing "Bring Them In". I did many great building projects with Jack and Metro Electric when I worked at Metropolitan Medical Center. May he Rest in Peace.

“ Eileen and family, thinking of you and sending my sincere condolences to you all. My memories of Jack were his passion for hunting, his kind smile and gentle ways and, of course, his teasing demeanor. Keep the wonderful memories of him close to your heart. Take care...
Warmly, Jane Thompson

“ Jack gave me the most valuable thing I have ever had in my life: Karen, his beautiful daughter. I have been lucky to have had Jack and his family in my life for the past 33 years. Jack taught me a lot, how to hunt in the mountains of Wyoming, how to do electrical work, how to enjoy winters in Arizona. I am eternally grateful that he gave his only daughter to me to be my wife.
Thanks Jack.
With respect and honor: Steve.

*I knew Jack from church. My husband, Tex described Jack as a terrific and class guy. Jack was kind and supportive of Tex during his illness and death. I will always be grateful for Jack's kindness and encouragement at our difficult time. It is my honor to hold Eileen and family in prayer during their difficult time of loss. God's blessings,
Linda Johnson*
