“ *Bea,
A friend of mine saw Pete at a class reunion and he told her about Jim. I feel horrible that we didn't know about it. Please know that David and I send our deepest, heartfelt sympathy. Jim was absolutely one of the good guys.
Fondly, David and Shirley Remijan*

BF

“ *To Bea and the Family,*

We just read about Jim's passing. We just want you to know how sorry we are and have nothing but fond memories of your husband and father. Jim was my boss at Raxco and LSC, but I always felt him more as a friend. The one thing I will always remember was how important his family was. Although work was important to Jim (as proven by his great success), it was a distant second to family.

We hope the Murdakes family fares well without the presence of this giant of a man.

“ *Bea and family,
Friendships like the one shared with Jim over the decades since we first met while serving in the army are a gift from God! I will forever treasure the memories of our phone conversations that we sustained on a regular basis over these many miles for so many years. Oh! So many subjects we covered and so many world problems he wanted to solve. Upon entering the gates of heaven, he is surely to be greeted with "Well done, Jim"*
