“ *I am so sad to learn of the passing of Jim.*

I relocated from the Twin Cities in the summer of 1994 to NJ having just gotten married. While in Minneapolis I had my small law office in the same Professional Bldg as Jim. Jim and I were great friends. My birthday is in July and on a couple of occasions his parents took us out to lunch. It was really difficult keeping in touch with friends and colleagues over the years as I tried to raise a young family and re-establish my career in another State. Fast forward to 2024 I was coming for an extended visit to my family in the Twin Cities and I wanted to re-establish as many connections as possible with my old friends, acquaintances and colleagues. So I hit google and to my surprise it appears I have lost quite a few of my old friends including Jim. Rest in peace dear one!

“ *I'm saddened and shocked to hear of Jim's passing. I have not been in touch for many years though I remember him with such fondness. In our 20's we shared many shabbat dinners, conversations, hikes, musings about life and appreciation for spirituality and life's mysteries and unfoldings. Wishing comfort to the mourners -- and to those impacted by his presence and his beauty. If I tune in, I can still connect with his special laugh.*

“ Jim and I went to camp together. First, I was his camp counselor, the a coworker. Jim was caring and smart, always dedicated to the task at hand. And he was fun, a smile a kind word for everyone, always. People enjoyed being around Jim. He will be missed by many of us. Rest in comfort and peace.
