“ *Jessy, my great granddaughter. I remember making your white satin baptismal dress. So tiny you were. We also had some great Christmases together. You were always such a beautiful girl. I wish I had gotten to know you better in your adult years. I never forgot your birthday and I'll never forget you. Rest In Peace. You have certainly earned your wings. Love you always*

“ *I'll never forget all the memories we had made over the years we were together. You were a big part of my life and helped me through a tough time as well. I will always remember our late night talks about life or going on vacation with you. We almost did everything together and I am happy I got to experience all of that with you. Thank you jessy.*

“ *I will always miss you walking down our driveway with your cat on your shoulder. I will miss our talks, whether it was about dogs or any animal you had at the time, and about our lives. You were taken way too soon. I hope your happy up there, and have a bunch of animals to take care of with you because that's what you loved to do!! I miss you jessy. ❤️❤️ You will forever be in our hearts.*

“ *Jessica- I can't believe you're gone. Your warmth and spunky attitude always brought up the saddest person. You were like a pink-haired snow white! I always enjoyed working with you because of the passion and respect you would show to those around you. We will all miss you. Thank you for everything you have taught us.
