“ *Jim, Rachelle and Paul,*

*Joan was such an amazing, thoughtful and caring person. I was a 25 year old new teacher at Kennedy in 1987, Joan was the secretary in the AV Department where I spent part of my day. If I needed or wanted an answer to anything she quickly became my "go to" person. Jim and her were incredible, she quickly became my "Minnesota Mom" as I was trying to survive my first years of teaching. In 1987 or 88, we were talking about our Thanksgiving plans at school, and for some reason that year I really had nowhere to go. Once she heard that, it was over- she said "That's it, your are coming to our house." Such an incredible caring and loving person.*
