“ I was so impressed with Jody - they way she handled the difficult kids with softness & patience. Always a smile on her face, positive attitude. I complimented her on her Swedish attire & she told me about some of the Swedish foods, customs she shared with her family. She called me by name when greeting me. It made me feel included. May God bring you Peace.

“ Ms. Jody,

I was so nervous how our first daughter would do in her first real classroom but I did not need to worry with you as her teacher. You created a safe, welcoming, and nurturing environment my daughter was so excited to go to ever day. My daughter loves school and she loved having you as her teacher. You made a huge impact here and will be deeply missed.
