“ John was one of the most giving individuals both in his life and career. He was a mentor to countless individuals that will miss both his knowledge and humor. His approach to all aspects of life were admired. He leaves many admirers in his work life, including myself. My sincere condolences to John's family, but I hope you find joy in the legacy he has left behind.

“ John was truly a wonderful person that I am so glad to have known. He's touched so many people. My son would always ask to go visit John when he came into the office. He just had that way with kids and making people feel special. I know he treasured his family more than anything in the world. I will miss our talks (aka cancer support group) and how he could tell a story. He will be greatly missed. My condolences Nancy, to you and your entire family.

“ I am so sorry to hear of John's passing. I had the privilege of working with John for years as an engineer with Mead Paper Co. in Escanaba, MI as well as through my years in the consulting business. I always considered him one of the finest people I have ever met as well as one of the brightest engineers. I am sure he will be missed by his family and many friends and colleagues. “ I am so sad to hear of John's passing. I worked with him at HDR and he called me his "surrogate daughter" because I was married around the same time as his daughter had had my first son at the same time his grandson was born. I learned so much from him including how to write a winning letter proposal at 4:30pm almost every single day. :)

The last time I saw John, he took my oldest to pick out anything he wanted from the vending machine and didn't even flinch when my youngest spit up all over him.

He truly loved his family and thought his grandchildren were amazing. I hope his family can find peace during this difficult time.

*Joan and I are very sorry to hear of John's passing. In my 40 years in the professional engineering field, I have been blessed to have worked with many outstanding people. John is among this valued group of friends and peers.*

*What I most remember about John is his dedication to helping others learn and grow in their fields. He epitomized being a wonderful mentor. His unselfish dedication to our clients and fellow HDR team members evidenced his team spirit.*

*Prior to my retirement, John and I shared a common cubicle area. So many times I was happy to hear how much he loved and cherished his family. His chats with Matthew warmed my heart. What a great husband, father and grandpa he was.*

*Our sympathies to Nancy and the family of a good man.*
