“*Joyce and I were good friends in our Sioux Falls high school, always enjoying each other's company in classes or activities. I kidded her about attending college at UMD since it was even colder there than in South Dakota. Enroute west in 1962, she stopped to see me at SD Mines and had a pleasant visit of our memories. Joyce was a wonderful person and I bless her long life, but also recall our good times together. God bless!*
