“ I attended Archbishop Murray Memorial High School with Judy and didn't have any classes with her so I really got to know her at HealtEast where we both worked. We connected also when she wrote her book 'Chasing the Strawberry Moon.' We set up a book reading/signing at Hill Murray and many former classmates attended. It was a great evening. Moving to Arizona to be close to her daughter and grandchildren speaks volumes of her role as grandmother. She was special.

“ Sending my sympathies to Dan and the entire family. I had the opportunity to work with Judy at HealthEast and professionally through ASCLS. Always the consummate professional and a great mentor. Rick

“ Karen, I am so sorry for your loss. You have been an extraordinary leader to me at USAA and I just wanted to offer my condolences. I'm guessing that the soft spoken, confident, smart and servant leader that you are may have come from your mother based on reading her accomplishments. I hold you and your family up in prayer.
