“ *The time I spent watching your journey Home will be with me forever, you were so graceful in your last days with us. "Our reunion in God's perfect peace is one of the most ecstatic events we ever experience. We are not traveling to some unfamiliar place, we are returning Home, to where we all came from, surrounded by spirits we've known, missed, and loved though this lifetime and before." I love you Gramma, Beth*

“ *My dear sister Julia, How I love you. You have been with me throughout my life. You made me proud of you always. As a child I would brag about my "big sister". You were there in my time of needs and joy and sorrow. I'll rejoice that I had you with me all these years and I will take comfort knowing you suffer no longer and are at peace with dear Ben, Mother and the Good Lord.*
