I usually see these things on Facebook but don't recall seeing this from anyone. My sister told me she saw it in Sunday's paper. Julie had the most amazing smile and laugh. I always picture her running around Irondale halls in her cheerleading uniform. She had such spunk. RIP Julie.

“ Yesterday, I learned of Julie Rabiola’s passing from a long-time friend from high school . Her photos were listed with her obituary were clearly from our high school years over 44 years ago. Her image brought me back through the years in my memory. Back to my strong marriage of 40 years, years of happiness with my 3 kids, now successful & happy adults. With joy and adulation, the greatness of adding 4 grand children with more on the way, I felt intense happiness and jubilation. But what of Julie’s life. I had not seen or talked to her in over 40 years. There was a note on her death announcement that memorials were preferred to Ataxia Research. Saddened, I realized that her life had been hard. No spouse or children were listed in her death announcement. I wish that I had a chance through the years, to let Julie know that she had a positive impact on me. I challenge all of my high school friends to reach out to our classmates from to make them aware that we are all together on this earth, to help each other through challenges like Julie’s with Ataxia. In Julie’s Memory, let’s all give what we can to research on this horrible disease. Rest in Peace & God Bless You.

I have not posted on dear Friend Julies website. Over the years we kept in touch and then lost touch. the pandemic; I would call her on her birthday, talk to Jackie & Tom, would send her pictures, one of which was a spoon cradle she had given me years ago saying " Cindy's spoons" I still have it sitting on my stove. I want to have a celebration of her life, will talk with Ty and see if we can do it at 3 stooges in Blaine. Will post info here when it comes to be. She went with us when we accompanied my Sister Lori to the Miss USA Parent in 1982. We had a Fabulous time. I miss You my Friend. You were a trooper. I remember the day that you found out you had inherited Your Mother's Gene regarding the Ataxia, You stopped by our Mississippi Street House.....: (! I Love You Julie! Prayers that you are dancing with the Angels and having fun with Your Mom. God less You My Sweet, Beautifully Loving Friend!
