“ I just became aware of Jurij's passing today and am deeply saddened. I just replaced my corporate phone that went away with the 'job' in May. One of the last calls received on that phone was from Jurij and, in true form he was checking in to see how I was doing. The first call that I made with the phone was to Jurij's number and when he did not answer, and the standard voice message did, I knew something was wrong. I could write a book of all the experiences and fun we shared over our 30 years of true friendship. He was always a loyal friend of the highest integrity and while we had years of little or no contact throughout the 30 yrs, our next conversation was as if we had just talked yesterday. I assisted him with the details of buying their home in Blaine and enjoyed Thanksgiving dinners several years as the orphaned guest. We vacationed together in Cancun, Isla Mujeres a few times and always had an absolute blast. Jurij was the guy who did not hesitate to answer my 3AM call and pick me up at the Blaine cop shop (I was just visiting). He tracked me down when I relocated 1800 miles away in AZ with a phone call pretending to be a telemarketing siding salesman. Like I said, I could write a book on the many, many fun times and experiences over the years. If you needed anything he was there for you without asking. Jurij was the best friend a person could find and I know that I was very fortunate to have him in my life. Thank you Jurij for being yourself ! You will never be forgotten and always fond memories.

“ Distances are not a matter when the memories are sweet. Special people are never forgotten because they remain in heart beats. JuriJ was a kind soul who will truly be missed by many... Graciously, he lived until he died. Enough those you love, we never know when will be the last. Thoughts and prayers to family and friends. JuriJ...until we meet again. Kara Carlson
