“ I was saddened to hear the death of Dr. Keum Hwa Choi because she was a Graduate Student of mine and obtained her PhD degree in 1990 in Veterinary Microbiology. As a graduate student, she was productive and was the first author in 9 Abstracts and Proceedings and delivered her research findings at National and International meetings. In addition, she was the first author in 4 peer-reviewed journals. I will miss her. She is now safe in the arms of Jesus and may her soul rest in peace. and may her daughter and rest of her family be comforted with the divine blessings and solace at this time of grief.

“ *Dr. Choi was a valued colleague and friend. She taught me the value of alternative medicine and how to blend eastern and western medicine as well. I learned a great deal from her and am a better veterinarian because of it. She was always a pleasure to work with and I will miss her and her unique perspectives.*

“ Dr. Choi has touched so many lives both personally and professionally in both treating and teaching. So very many two and four legged creatures have benefitted from her care and skill. Dr. Choi's extensive knowledge and expertise that she shared with students and clients alike is truly amazing. The testimonials of miraculous recovery as well as extended quality in life are numerous, even in my personal and pet experiences with her. We are very fortunate to have had the opportunity to have been treated by her extensive skill, kindness and compassion.

Dr. Choi spoke often of Kami with such pride as she marveled at her accomplishments at school and through different life experiences. It was obvious that Kami as well as family in Korea have always been a great source of joy to her.

It is with happiness that Dr. Choi has been a part of our lives but great sorrow that she left us too soon. Sincere condolences to all of her friends and family.

“ *The most wonderful soul I've ever met. I am so sad to read of her passing. She loved our dogs Jessi and Jasper as if they were her own. I looked forward to our weekly visits at the U of M Vet clinic. She would explain so well what she was doing and why, during these sessions. You could feel the positivity and energy as soon as she walked into the room. You will be sadly missed Dr. Choi. Warm hugs to your family.*

“ *Dr. Choi was an incredible human being. It's impossible to imagine how many beings (of so many species) she helped in countless tangible and significant ways. Her inquisitive and brilliant intellect coupled with her deeply compassionate care made her an exceptional doctor and teacher. I will always be thankful for the quality of life she enabled for my dog (and thereby our family) amidst difficult circumstances. With sincere condolences to Kami, her family, friends and colleagues who loved her.*

“ *Kami, I am so sorry about your mother passing. My condolences to you and her family and friends. I will miss Dr. Choi's wit and the wise counsel offered freely while she scanned the body, calmly and logically explaining what was going on (too much heat or liver chi stagnation, the body never lies, etc), followed by inserting needles wherever it hurt. Then, she sent me off with dark chocolate and a cup of tea that she said was just as important as herbs. Sometimes you were in the lobby, patiently waiting to drop off a spicy lunch for her. She beamed when talking about you. She told me she felt her purpose was being a good mother and doctor. Dr. Choi taught me it may not be possible to change inherited DNA, but a better quality of life could be created with acupuncture, herbs, and nutrition. She spoke about passing and commented the body was temporary, so her focus was on the health of the spirit by encouraging others and helping them heal or manage health issues. She said she loved her work and felt privileged to help people and their pets. I hope you can take comfort in that.*

“ Rest in peace dear Keumhwa...thank you for sharing your gentle spirit, healing touch and expert knowledge in restoring balance to our animal patients and people! We know you will be deeply missed and may peace be with your family, friends and colleagues at this difficult time. Dr Choi inspired many to seek further training in TCM, and opened many hearts and minds to new ways of thinking and integrating treatment to help patients heal. God bless you and your family ❤️

“ I will be forever grateful for Dr. Choi. She gave SO much to the Education Department at The Raptor Center (TRC). She gave several of the older Education Ambassadors relief from their arthritis symptoms and that helped give them a high quality of life for several more years. The bird we first started with was the bald eagle Othello. We all learned so much in the process. All the animals she worked with (and their humans) were so much better because Dr. Choi was in the world. I will miss her

“ I am so sorry to hear of Dr. Choi's death. She was breathtaking to have as a doctor, both for me and my cats. I told her that if she told me to eat dirt and laundry detergent, I would do so because I trusted her implicitly. She just laughed when I told her that. All who knew her are the richer for her presence and lessened by her loss. She will be forever remembered.

“ I am so shocked and sorry to learn of Dr. Choi's passing! I met her for the first time in Dec. of 2014. She was referred to us by other Dr.'s at the University. We brought Oliver, my 4 year old cocker spaniel to see her. He had been diagnosed two months earlier with liver cancer and had been given 6 mos. to a year to live. Over the next several years she administered acupuncture & prescribed him different Korean herbs. We continued to see her until 2020 when she began working from her home. Oliver is now 12 and 1/2 years old! We will be forever grateful to Dr. Choi for her wonderful care!

“ *Dr. Choi Was a Joy!*

She was a friend that when we saw each other after many years it was like we never drifted from that wonderful friendship.

I am devastated and was hoping to laugh and share hotel room like we did many times at conferences. I adored her so.

Love and peace to her beautiful daughter and family

“ *My heart skipped a beat when I read of Dr. Choi's sudden passing away! I had hoped her retirement from the University of MN*

Veterinary Medicine meant she'd be having time to herself. Sadly, she must have been suffering and for that my heart aches.

Dr. Choi saw my toy poodle "Charly" via several zoom appointments during COVID-19. Charly had inappetence and inappropriate marking in our house. After a thorough evaluation, where I was included in assisting with the examination, she prescribed Chinese herbs for him. After a few months, Charly had ceased marking and his appetite returned and we were delighted with the results.

I agree with so many others that Dr. Choi's blending of allopathic and oriental medicine was such a gift to our community and for the many dogs whose owners had exhausted western medicine.

May her spirit be free and find peace now. I will always have deep gratitude for her care and wisdom and send deepest condolences to her beloved daughter, her mother and siblings.

“ *I am so saddened to hear this news. Add my name to the list of pet parents who are so incredibly grateful for Dr. Choi's incredible competence, wisdom, empathy, and care for our animals (and by extension all of us). “ I had an older dog that could hardly walk. I took him to see Dr. Choi and within weeks he was walking so much better. For over 3 years I spent an hour with her each month learning about her family, culture and travels. She was so interesting and kind. The veterinary world lost a great Dr. and a lot of us lost a great friend.

“ Dear members of Keum Hwa's family,

As a colleague at the VMC, I am so saddened by your loss. When I think of her, I remember her wonderful smile, cheerfulness and kindness. I also think about her wonderful cooking, such as the time she showed us how to make jap chae during a live video cooking lesson. She was a lovely person with a generous heart and she is deeply missed.

“ Dr. Choi is one of my heroes! She brilliantly and compassionately cared for our beloved White German Shepherd Carolina for several years at U of M. I know that she helped keep Carolina alive (still today). I had thought of taking Carolina back to see Dr. Choi but knew that she was not seeing patients anymore. I did not really think that Carolina needed to see her, but I longed to be in Dr. Choi's presence.

“ I want to offer my deepest condolences to the family of Dr. Choi. Dr. Choi was treasure to her patients and there will not be another like her.

Her mastery of both allopathic and traditional healing is seldom seen in any one individual.

Dr. Choi was a profound blessing for one of our dogs, Snowy, when no other services could help her, and provided an approach that gave us many more months with our little rescue peke Snowy.

I am very saddened to learn of her passing.

I hope her family can find comfort in knowing that there are, many of us who will keep her memory alive for the rest of our lives. How can one ever forget such a soul as hers who has blessed so many?

And last, I hope Dr. Choi's children will know that their mother was a quiet giant among healers.
