*My sincere Condolences to you and all of Kevin's children and Family I haven't seen Kev since probably 1988 as I graduated Salinas High in 1987 and he had a year or so left But we both played Football and wrestled and he and I worked together as the 2 assistant coaches for Washington Jr High wrestling team and we would bust each others chops constantly and he was a very good person and fun to be around. I was shocked and saddened to learn of his passing and wanted to pay respects to Kevin and family we had a war cry I started back in the day that you may have heard Kevin blurt out randomly and you wondered what is that , but one of his good friends who's stayed in touch with him said every time they talk Kevin would belt it out and T. Collins would relay to me and back to Kevin our responses and I just wish we could have connected and tell tall tales and argue who could pin who the fastest. RIP old friend Our battle cry one last time in your honor Aaaaaaoooooofffff*
