RC

“ *My deepest condolences to Suzanne, Donna, Matt, Kristin, and the grandchildren. May your faith, your memories of Lennie, and your closeness as family comfort you through this.*

As kids, Lennie and I had great fun. We were the only boy cousins at that time so we became close. As a team, one would distract grandma while the other grabbed as many cookies as he could carry inconspicuously. Then we would meet in the back yard to share the fruit of our stealth. I never found another accomplice so eager to “learn” the art of stealing cookies even though they were free for the asking.

My family moved away, so Lennie and I were not able to pursue the teen and adult years around each other. We did, however both find relationships with the Lord. In that, I find comfort that he is now in the better place, and we will have a lot of time together for eternity. So cousin Lennie, if you read this, hug grandma for me and save me a few cookies!
