“ I met Micky at the YMCA 10 years ago. One day, Micky rode into the YMCA on his brand new HD motorcycle. As we admired his new bike, he was anxious to go exercise because he had places to "bike" later that day. Micky became my exercise role model because he was decades older than me and said he would never quit exercising. Micky exercised aggressively and motivated me to exercise. As the years passed, Micky said he was warming up the exercise equipment for me because he was the early-bird. After exercise, we would enjoy coffee at the Y and listen to his exciting motorcycle and camping stories.

Micky and Bev invited my wife and me to a church fish fry. Over the years, he was self-appointed to "count" the the slices of pie I ate at the fish frys. We shared many conversations. They were both so proud of their family. They shared how much they enjoyed babysitting their great-grandsons.

I will never forget Micky and Bev. They passed away only 8 weeks apart during the holidays. My parents were in hospice together; they passed away a few years ago exactly 8 weeks apart during the holidays.

My parents headstone reads, "Together Forever." Micky and Bev can continue with their dreams on the other side as husband and wife "together forever." As inspirational, positive role models to the end of their lives, may God continue to Bless them Abundantly. We miss you. Bob and Linda
