

## Lester Drager

June 2, 2002

Lester Burton Drager, age 81, was called back May 29, 2002. He is survived by Marjorie, his wife of 55 years; son, Dr. Lance (Mary Jo) of Texas; son, Kent and grandson, Grant of Connecticut; relatives and friends. Les graduated from Swanville High School and St. Cloud State and taught in Dilworth, Minnesota. After serving three years as a LT.jg in the United States Navy, Les graduated with an MBA from the University of Minnesota and earned his CPA in the state of Nebraska. He was a thirty-two year employee of Northern States Power Company. Les enjoyed keeping a set of financial books, and with every organization he joined, whether it be church, related to work, golf, bridge or his homeowner's association, he managed to be elected treasurer. Those books were never one cent out of balance. Les' personal passion was golf. Many happy hours were spent over fifty years as a member of the Greenhaven Golf Club in Anoka. He was grateful to all of his buddies there, especially Lou Kalen, Ray Hedlund, and Dick Ward. He was fortunate enough to spend the last fifteen winters of his retirement in Ft. Myers, Florida in his home on the golf course. Les could be found almost daily at the first tee. The family wishes to thank his doctor and friend, Dr. Charles McCoy, the caring people at Heartland Hospice, and the American Cancer Society. Burial will be in Ft. Meyers, Florida, with a family memorial service at a later date.
