“ How do I even find words that can express what you meant to me? I have struggled all week and find myself drifting in and out of memories and plans, where we have been and what we were going to do, the depth of how we understood the things the other was going thru in a way that nobody else could possibly comprehend, my rock, my go to, my wonderful, beautiful friend, all of it seemingly wiped out in an instant by a beep of my phone and a simple text message. Although I try to hang on to the gratitude of having been lucky enough to even have had you in my life for as long as I have makes the thought of continuing without you feel like a long and lonely road ahead I will miss you my sista

“ Linda, my memories go back 30 years. You always had a smile and a much needed hug every time I walked thru your doors. Always working on a craft of some type. Remembering the 1000's of headbands you sewed, stuffed and decorated for the Renaissance Festival. Your love of plants. Christmas baking and spaghetti pie. I love you MA and will miss you dearly. God has a special place in his garden for you.

“ *I was Linda's senior companion and we spent many hours together each week shopping or just visiting until covid 19 happened then it was phone calls chatting about our families or what we did during the week. I will miss her and always remember our time together.*

“ *Greatful for the memories and time we got with you grandma. This is one of my favorite memories of us. You me and mom did a quilting project. You always had a way of making everyone smile, love you forever.*
